CHAPTER THREE

RULES OF ORIGIN AND ORIGIN PROCEDURES

Section A: Rules of Origin

Article 3.1: Originating Goods

1. Except as otherwise provided in this Chapter, a good shall be treated as originating in a Party where the good is:

- (a) wholly obtained or produced entirely in the territory of a Party;
- (b) produced entirely in the territory of one or both of the Parties, exclusively from originating materials under this Chapter; or
- (c) produced entirely in the territory of one or both of the Parties using non-originating materials, satisfying the requirements under Annex 3-A.

2. Additionally, the good shall satisfy all the other applicable requirements of this Chapter.

Article 3.2: Wholly Obtained or Produced Goods

For purposes of Article 3.1.1.(a), the following goods are wholly obtained or produced entirely in the territory of a Party:

- (a) live animals born and raised in the territory of a Party;

 - (ii) used goods collected in the territory of a Party, provided that such waste and scrap is fit only for the recovery of raw materials; and
- (j) goods produced exclusively from goods specified in subparagraphs (a) through (i).

Article 3.3: Regional Value Content (RVC)

1. The regional value content of a good shall be calculated on the basis of one of the following methods:

- (a) Method Based on Value of Non-Originating Materials (Build-down Method)

$$RVC = \frac{FOB - VNM}{FOB} \times 100$$

- (b) Method Based on Value of Originating Materials (Build-up Method)

VOM

$$\text{RVC} = \frac{\text{VNM} + \text{VOM}}{\text{FOB}} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

FOB is the free on board value of the good;

VNM is the value of the non-originating materials; and

VOM is the value of originating materials.

2. The value of the non-originating materials shall be:
 - (a) in the case of a material imported directly by the producer of a good, the CIF value at the time of importation of the material;
 - (b) in the case of a material acquired by the producer in the territory where the good is produced, the transaction value, without considering the costs of freight, insurance, packing, and the other costs incurred in the transportation of the material from the warehouse of the supplier to the place where the producer is; or
 - (c) in the case of a self-produced material or where the relationship between the producer of the good and the seller of the material influences the price actually paid or payable for the material, the sum of all costs incurred in the production of the material, including general expenses. Additionally, it will be possible to add an amount for profit equivalent to the profit added in the normal course of trade.
3. The values referred to in this Article shall be determined in accordance with the Customs Valuation Agreement.

Article 3.4: Intermediate Materials

1. When an originating good is used in the subsequent production of another good, no account shall be taken of the non-originating materials contained in the originating good for purposes of determining the originating status of the subsequently produced good.

2. When a non-originating good is used in the subsequent production of another good:

- (a) for purposes of calculating the value of the non-originating materials of the subsequently produced good, an account shall be taken only of the non-originating materials contained in the non-originating good; and
- (b) for purposes of calculating the value of the originating materials of the subsequently produced good, an account shall be taken of the originating materials contained in the non-originating good.

Article 3.5: Non-Qualifying Operations

1. The following operations shall be considered to be non-qualifying operations to confer the status of originating goods, whether or not the requirements under this Chapter are satisfied:

- (a) operations to ensure the preservation of goods in good condition during transport and storage;
- (b) changes of packing or breaking-up or assembly of packages;
- (c) washing, cleaning, removal of dust, oxide, oil, paint, or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;
- (g) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards, and all other simple packing operations;

- (m) drying, salting (or keeping in brine), refrigeration or freezing; or
- (n) a combination of two or more operations specified in subparagraphs (a) through (m).

2. All operations carried out in a Party on a given good shall be considered together when determining whether the operations undergone by that good are to be regarded as non-qualifying within the meaning of paragraph 1.

3. The provisions of this Article will apply to the goods produced with non-originating materials.

4. For purposes of this Article:

- (a) **simple** means activities which need neither special skills nor machines, apparatus or equipment especially produced or installed for carrying out the activity;
- (b) **simple mixing** means activities which need neither special skills nor machines, apparatus, or equipment especially produced or installed for carrying out the activity but does not include chemical reaction; and
- (c) **chemical reaction** means a process, including a biochemical process, which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

Article 3.6: Accumulation

1. Originating goods or materials from the territory of a Party, incorporated into a good in the territory of the other Party, shall be considered to be originating in the territory of the other Party.

2. Production carried out by a producer in the territory of a Party may be accumulated with the production of one or more producers in the territory of that Party or the other Party, in such way that the production of the materials

incorporated into the good shall be considered as carried out by that producer, provided that the good satisfies the requirements established in Article 3.1 and all other applicable requirements in this Chapter.

5. A Declaration of Origin shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 3.19 shall not be required to sign such declarations provided that the exporter gives the competent authority of the exporting Party a written undertaking that

A Proof of Origin shall not be required where:

- (a) the customs value of the importation does not exceed 1,000 US dollars or the equivalent amount in the currency of the importing Party, or such higher amount as may be established by the importing Party, unless the importing Party considers the importation to be carried out or planned for purposes of evading compliance with the Party’s domestic laws governing claims for

- preferential tariff treatment under this Agreement; or
- (b) it is a good for which the importing Party does not require the importer to present a Proof of Origin demonstrating origin.

Article 3.21: Validity of Proof of Origin

1. A Proof of Origin shall be valid for 12 months from the date a Certificate of Origin is issued, or from the date a Declaration of Origin is made out in the exporting Party. Such Proof of Origin shall be presented within the said period to the customs authorities of the importing Party, in accordance with its domestic law.
2. The Proof of Origin which is submitted to the customs authority of the importing Party after the final date for presentation specified in paragraph 1 may be accepted for the purposes of applying preferential tariff treatment, where the failure to submit these documents by the final date set is due to natural disasters.

Article 3.22: Claims for Preferential Tariff Treatment

1. Except as otherwise provided for in this Chapter, each Party shall require an importer in its territory that claims preferential tariff treatment to:
 - (a) make a written statement in the customs declaration, based on a valid Proof of Origin, indicating that the good qualifies as originating;

2. Where an importer has a reason to believe that a Proof of Origin on which a statement was based contains incorrect information, the importer shall make a corrected statement and pay any customs duty owed, in

accordance with the legislation of each Party.

3. Where an importer does not comply with any requirements under this Chapter, preferential tariff treatment shall be denied to the goods imported from the territory of the exporting Party.

Article 3.23: Post-Importation Claims for Preferential Tariff Treatment

Where a good was originating when it was imported into the territory of the importing Party, but the importer of the good did not claim preferential tariff treatment at the time of importation, that importer may, within the period specified in the Party's domestic laws or within one year following the date of importation, claim preferential tariff treatment and apply for a refund of any excess duties paid as a result of the good not having been accorded preferential tariff treatment, upon presentation to the importing Party of:

Article 3.25: Discrepancies and Formal Errors

1. Discovery of slight discrepancies between the statements made in the Certificate of Origin and those made in the documents submitted to the customs authority for the purpose of carrying out the formalities for importing goods shall not *ipso facto* render the Certificate of Origin null and void if it is duly established that such document does correspond to the good submitted.

2. Obvious formal errors such as orthographic and typing errors, or protrusions from the designated field in a Certificate of Origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 3.26: Verification

1. For the purposes of determining whether a good imported into the territory of a Party from the territory of the other Party qualifies as originating, the competent authority of the importing Party may conduct a verification by means of:

- (b) where an exporter or producer fails to provide the information and documentation required within the period referred to in subparagraph (a), the importing Party may deny preferential tariff treatment to the good in question after providing at least a 30 days written notice to the exporter or producer to provide written comments or additional information that will be taken into account prior to completing the verification.

4. Where the competent authority of the importing Party requests assistance under paragraph 1(b):

- (a) it shall provide the competent authority of the exporting Party with:

- (c) upon receipt of notification pursuant to subparagraph (a), such an exporter or producer may, within 15 days of receiving the notification, have one opportunity to request to the Party conducting the verification for a postponement of the proposed verification visit, for a period not exceeding 60 days. This extension shall be notified to the competent authority of the importing and exporting Party.

6. The importing Party shall, within 12 months following the initiation of the verification, notify the importer and the exporting Party, including the exporter or producer through the competent authority of the exporting Party, in writing, of the determination whether the good is originating, as well as factual findings and the legal basis for the determination.

7. Where, at the time of importation, the competent authority of the importing Party has a reasonable doubt on the origin of a good, the good may be released upon a deposit or the payment of duties, pending the outcome of the verification. The deposit or duties paid shall be refunded once the outcome of the verification confirms that the good complies with the requirements under this Chapter.

8. A Party may suspend preferential tariff treatment to an importer on any subsequent import of a good when the competent authority of the Party had already determined that an identical good was not eligible for such treatment, until it is demonstrated that the good complies with the requirements under this Chapter.

Notes to Chapter 27: Note 1. For the purposes of this Chapter, a chemical reaction confers the status of originating goods. “Chemical reaction” means a process (including biochemical processes) that produces a molecule with a new structure by breaking intramolecular bonds and forming new intramolecular bonds, or by changing the spatial arrangement of atoms in a molecule. The following do not constitute chemical reactions for the purposes of this definition (a) dissolution in water or other solvents; (b) the elimination of solvents, including water of solution; or (c) the addition or removal of water of crystallization. Note 2. For the heading 27.10 purposes, the following processes confer the status of originating goods (a) Atmospheric distillation - A separation process in which petroleum is converted in a distillation tower into fractions according to boiling point. Subsequently the vapors are condensed into different liquid fractions; liquefied petroleum gas, naphtha, gasoline, kerosene, diesel (heating oil), light gas oils, and lubricant bases are produced by atmospheric distillation of petroleum; (b) Vacuum distillation - Distillation at a pressure below atmospheric, but not so low as to be considered molecular distillation. Vacuum distillation is used to distill heat-sensitive products with high boiling points, such as heavy distillates contained in petroleum, from which light and heavy vacuum gas oils and residues are obtained. In some refineries, the gas oils can be further processed to obtain bases for lubricating oils; (c) Catalytic hydroprocessing - The cracking and/or treatment of petroleum derivatives with hydrogen at high temperatures and pressure, with the presence of special catalysts. Catalytic hydroprocessing includes hydrogen cracking and hydrotreating;		

HS 2017	Description	Product Specific Rules (PSR)
	(d) Reforming (catalytic reforming) - Consists of the rearrangement of molecules in the boiling range of naphthas to form higher octane aromatics (e.g. improving anti-knock quality at the expense of gasoline yield). One of the main products is catalytic reforming, used as a blending component for gasoline. In this process, hydrogen is obtained as a by-product; (e) Alkylation - The process by which high-octane gasoline is obtained by catalytically combining an isoparaffin and an olefin; (f) Cracking - Refining process that involves the molecular decomposition and recombination of organic compounds by means of heat, which combine to form molecules more suitable to constitute motor fuels, monomers, etc.; (g) Coking - Thermal cracking process in which heavy residual hydrocarbons of low economic value, such as reduced crude, cracking residue, tar, and shale oil, are converted by high temperatures into carbon, also obtaining hydrocarbon fractions of lower boiling temperatures, which are prepared to be used as feedstock for other process units in the refineries, to be finally converted into products of higher added value; and (h) Isomerization - A petroleum refining process in which hydrocarbons with iso molecular structure are converted into their corresponding isomers. Note 3. In heading 27.10, "direct blending" means a refining process in which mixtures of petroleum from different processing units and components stored in tanks are combined to create a finished product, with predetermined parameters, classified in heading 27.10.

3. To the extent possible, and in a manner consistent with its domestic law and legal system each Party shall publish in advance any regulations of general application governing customs matters that it proposes to adopt and shall provide interested persons the opportunity to comment before adopting them.

Article 4.4: Automation

Each Party shall use information technology that expedites procedures for the release of goods and shall:

- (a) make electronic systems accessible to customs users;

Article 4.5: Advance Rulings

1. Each Party shall issue, through its customs authority, before a good is imported into its territory, a written advance ruling at the written request of an importer in its territory, or an exporter or producer in the territory of the other Party with regard to:

For greater certainty, an importer, exporter or producer may submit a request for an advance ruling through a duly authorized representative.

- (a) tariff classification;
- (b) the application of customs valuation criteria for a particular case, in accordance with the Customs Valuation Agreement;
- (c) whether a good is originating under this Agreement; and

- (d) such other matters as the Parties may agree.
2. Each Party shall issue an advance ruling within 90 days after its customs authority receives a request provided that the requester has submitted all the information that the Party requires, including, if the Party requests, a sample of the good for which the requester is seeking an advance ruling.

In issuing an advance ruling, the Party shall take into account facts and circumstances the requester has provided.

For greater certainty, the Party may decline to issue an advance ruling if the facts or circumstances forming the basis of this ruling are the subject of administrative or judicial review, or if there is already an administrative or judicial decision on the same matter. The Party that, pursuant to this paragraph, declines to issue an advance ruling shall promptly notify the requester in writing, setting forth the relevant facts and the basis for its decision to decline to issue the advance ruling.

3. Each Party shall provide that advance rulings shall take effect on the date they are issued, or on another date specified in the ruling, provided that the facts or circumstances on which the ruling is based remain unchanged.

4. The issuing Party may modify or revoke an advance ruling after publication of the decision in accordance with the laws and regulations of the issuing Party. The issuing Party may modify or revoke a ruling retroactively only if the ruling was based on inaccurate or false information.

5. Subject to any confidentiality requirements in its laws, each Party shall publish its advance rulings, including on the Internet.

Article 6.9: Information Exchange

1. Any information or explanation that a Party provides upon request of the other Party pursuant to this Chapter shall be communicated within a reasonable period of time, in written form through regular mail or any other means accepted by the Parties, including electronic mail. A Party shall endeavor to respond to each such request within 60 days.
2. Nothing in this Chapter shall be construed to require a Party to furnish any information, the disclosure of which it considers contrary to its essential security interests.

Article 6.10: Committee on Technical Barriers to Trade

1. For purposes of the effective implementation and operation of this Chapter, the Committee on Technical Barriers to Trade (hereinafter referred to as the “Committee”) shall be established. The Committee shall be composed of representatives of the Parties.
2. The functions of the Committee shall include:
 - (a) facilitating the implementation of this Chapter and cooperation between the Parties in all matters pertaining to this Chapter;
 - (b) monitoring the implementation, enforcement and administration of this Chapter;
 - (c) addressing adequately any issue that a Party raises relating to this Chapter;
 - (d) coordinating and enhancing joint cooperation between the Parties in the areas set out in Article 6.8;
 - (e) identifying mutually agreed priority sectors for enhanced cooperation regarding any proposal made by either Party;

- (h) exchanging information on developments in non-governmental, regional, and multilateral fora engaged in activities related to standards, technical regulations, and conformity assessment procedures;
- (i) upon written request of a Party, consulting with the aim of solving any matter arising under this Chapter within a reasonable period of time;
- (j) reviewing this Chapter in light of any development under the TBT Agreement and, if necessary, developing recommendations for amendments to this Chapter;
- (k) establishing, if necessary to achieve the objectives of this Chapter, issue-specific or sector-specific *ad hoc* working groups;
- (l) as it considers appropriate, reporting to the Joint Committee on the implementation of this Chapter;
- (m) taking any other steps that the Parties consider will assist them in implementing this Chapter; and
- (n) any other issues related to this Chapter as determined by Joint Committee.

3. The Committee shall meet upon request of a Party. Meetings may be conducted in person, or via teleconference, videoconference, or any other means as mutually agreed by the Parties.

4. Where a Party has recourse to consultations under subparagraph 2(i), if the Parties agree, these will constitute consultations according to the Article 20.4 (Consultations).

5. The Committee shall be coordinated by:

- (a) for Korea, the Korean Agency for Technology and Standards, or its successor; and
- (b) for Ecuador, the Ministry of Production, Foreign Trade, Investment and Fishery; or its successor.

Depending on the issue, responsible ministries or regulatory agencies shall participate in the Committee meetings.

6. Each Party shall designate a contact point who shall have the responsibility to coordinate the implementation of this Chapter; and provide the other Party with the name of this designated contact point and the contact detail of relevant officials in that organization, including information on telephone, facsimile, e-mail and other relevant details. Each Party shall promptly notify the other Party of any change of its contact point or any amendment to the information of the relevant officials. The authorities shall be responsible for coordinating with the relevant institutions and persons in their respective territories as well as for ensuring that such institutions and persons are engaged.

Article 6.11: Market Surveillance

The Parties undertake to exchange views on market surveillance and enforcement activities.

Article 6.12: Measures at the Border

Article 6.13: Marking and Labeling

In particular, the Parties agree that where a Party requires mandatory marking or labelling of products:

- (a) the Party shall endeavour to minimise its requirements for marking or labelling other than marking or labelling relevant to consumers or users of the product;
- (b) unless necessary in view of the risk of the product to human, animal or plant, health or life, the environment or national safety, such Party shall not require the approval, registration or certification of labels or markings as a precondition for sale on their respective market. This subparagraph is without prejudice to measures adopted by the Party pursuant to its domestic rules to verify the compliance of labels with mandatory requirement and measures taken to control practices which may mislead consumers;

- (c) when a Party requires the use of an identification number by the economic operator, this shall be issued without undue delay;
- (d) the Party shall remain free to require that the information on the marks or labels be in a specified language. Where there is an international system of nomenclature accepted by the Parties, this may also be used. The simultaneous use of other languages shall not be prohibited, provided that, either the information provided in the other languages shall be identical to that provided in the specified language, or that the information provided in the additional language shall not constitute a deceptive statement regarding the product; and
- (e) when the legitimate objectives established in the TBT Agreement are not compromised, such Party shall endeavour to accept non-permanent or removable labels, or having the information provided by means of the product manual, packing or packaging instead of it being printed on or physically adhered to the product.

CHAPTER SEVEN TRADE REMEDIES

Section A: Safeguard Measures

Article 7.1: Application of a Bilateral Safeguard Measure

If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party may:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation (hereinafter referred to as “MFN”) applied rate of duty on the good in effect at the time the action is taken; and
 - (ii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

Article 7.2: Conditions and Limitations

1. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 2 and shall consult with the other Party within 30 days of the initiation of the investigation, with a view to reviewing the information arising from the investigation and exchanging views on the measure.

2. A Party shall apply a bilateral safeguard measure only following an investigation by the Party’s competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Articles 4.2(a) and 4.2(b) of the Safeguards Agreement, and to this end, Articles 4.2(a) and 4.2(b) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

4. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.

5. Neither Party shall apply a bilateral safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
- (b) for a period exceeding three years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard measure, including the period of initial application and any extension thereof, shall not exceed four years; or
- (c) beyond the expiration of the transition period, except with the consent of the other Party.

6. Neither Party shall apply a bilateral safeguard measure more than once against the same good for a period of time equal to the duration of the previous bilateral safeguard measure.

7. Where the expected duration of the bilateral safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

8. When a Party terminates a bilateral safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-B (Reduction or Elimination of Customs Duties), would have been in effect but for the measure.

Article 7.3: Provisional Measures

1. In critical circumstances where delay would cause damage that would

be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. The applying Party shall notify the other Party before applying a bilateral safeguard measure on a provisional basis, and shall initiate consultations after applying the measure.

3. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 7.2.2 and 7.2.3.

4. The Party shall promptly refund any tariff increases if the investigation described in Article 7.2.2 does not result in a finding that the requirements of Article 7.1 are met. The duration of any provisional measure shall be counted as part of the period described in Article 7.2.5(b).

Article 7.4: Compensation

1. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.

3. The right to suspend the application of concessions in accordance with paragraph 2 shall not be exercised for the first two years during which the bilateral safeguard measure is in effect, provided that the bilateral safeguard measure has been applied as a result of an absolute increase in imports and that it conforms to this Agreement.

4. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the bilateral safeguard measure

terminates.

5. Any compensation shall be based on the total period of application of the provisional bilateral safeguard measure and of the bilateral safeguard measure.

Article 7.5: Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. Unless otherwise provided in this Article, this Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if such imports are not a substantial cause of serious injury or threat thereof.

2. At the request of the other Party, the Party intending to take safeguard measures shall provide immediately *ad hoc* written notification of all pertinent information on the initiation of a safeguard investigation, the preliminary determination and the final determination of the investigation.

3. Neither Party shall apply, with respect to the same good, at the same time:

- (a) a bilateral safeguard measure; and
- (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

4. Neither Party shall have recourse to Chapter Twenty (Dispute Settlement) for any matter arising under this Article.

Section B: Anti-Dumping and Countervailing Duties

Article 7.6: General Provisions

1. Except as otherwise provided for in this Chapter, the Parties maintain their rights and obligations under Article VI of GATT 1994, the AD Agreement and the SCM Agreement.

2. The Parties agree that anti-dumping and countervailing duties should be used in full compliance with the relevant WTO requirements and should be based on a fair and transparent system as regards proceedings affecting goods originating in the other Party. For this purpose, the Parties shall ensure, immediately after any imposition of provisional measures and in any case before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6.5 of the AD Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and allow interested parties sufficient time to make their comments.

3. Provided that it does not unnecessarily delay the conduct of the investigation, interested parties shall be granted the opportunity to be heard in order to express their views during the anti-dumping or countervailing duty investigations.

Article 7.7: Notification and Consultation

1. After receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application, consistent with the Party's law.

2. After receipt by a Party's competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall afford the other Party a meeting to consult with its competent authorities regarding the application, consistent with the Party's law.

Article 7.8: Undertakings¹

1. After a Party's competent authorities initiate an antidumping or countervailing duty investigation, the Party shall transmit to the other Party's embassy or competent authorities written information regarding the Party's procedures for requesting its authorities to consider an undertaking on price including the time frames for offering and concluding any such undertaking.

2. In an antidumping investigation, where a Party's authorities have made a preliminary affirmative determination of dumping and injury caused by such

¹ For greater certainty, this Article should be interpreted consistently with Article 8 (Price Undertakings) of the AD Agreement and Article 18 (Undertakings) of the SCM Agreement.

dumping, the Party shall afford due consideration, and adequate opportunity for consultations, to exporters of the other Party regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of antidumping duties, through the means provided for in the Party's domestic laws and procedures.

3. In a countervailing duty investigation, where a Party's authorities have made a preliminary affirmative determination of subsidization and injury caused by such subsidization, the Party shall afford due consideration, and adequate opportunity for consultations, to the other Party and exporters of the other Party, regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of countervailing duties, through the means provided for in the Party's laws and procedures.

Article 7.9: Cumulative Assessment

When imports from more than one country are simultaneously subject to anti-dumping or countervailing duty investigation, a Party shall examine, with special care, whether the cumulative assessment of the effect of the imports of the other Party is appropriate in light of the conditions of competition between the imported goods and the conditions of competition between the imported goods and the like domestic goods.

Article 7.10: Consideration of Public Interests

The Parties shall endeavor to consider the public interests before imposing an anti-dumping or countervailing duty.

Article 7.11: Public Hearing

Each Party, in accordance with law, shall take due consideration in holding a public hearing, either upon receipt of written application from interested parties or on its own initiative.

Article 7.12: Dispute Settlement

Neither Party shall have recourse to Chapter Twenty (Dispute Settlement) for any matter arising under this Section.

Section C: Committee on Trade Remedies

Article 7.13: Committee on Trade Remedies

1. The Parties hereby establish a Committee on Trade Remedies (hereinafter referred to as the “Committee”) to oversee implementation of this Chapter and to discuss matters that the Parties agree. The Committee comprises representatives at an appropriate level from relevant agencies responsible for trade remedy measures of each Party.
2. The Parties may cooperate as applicable to promote a better understanding of their respective laws, their application and, in general, any aspect of trade policy regarding trade remedy matters by sharing information and experiences through the Committee.
3. The Committee shall meet on the time and place which the Parties mutually agree.

Section D: Definitions

Article 7.14: Definitions

For purposes of Section A:

bilateral safeguard measure means a measure described in Article 7.1;

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

serious injury means a significant overall impairment in the position of a domestic industry;

substantial cause means a cause that is important and not less than any other cause;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

CHAPTER EIGHT

CROSS-BORDER TRADE IN SERVICES

Article 8.1: Scope

1. This Chapter shall apply to measures adopted or maintained by a Party affecting cross-border trade in services by service suppliers of the other Party. Such measures include measures affecting:

- (a) the production, distribution, marketing, sale, and delivery of a service;
- (b) the purchase or use of, or payment for, a service;
- (c) the access to and use of distribution, transport, or telecommunications networks and services in connection with the supply of a service;
- (d) the presence in its territory of a service supplier of the other Party; and

3. Notwithstanding paragraph 1, this Chapter does not apply to:

- (a) financial services as defined in Article 10.19 (Definitions);
- (b) government procurement;
- (c) air services, including domestic and international air transportation services, whether scheduled or non-scheduled, and related services in support of air services, other than:
 - (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service, excluding so-called line maintenance;

- (ii) selling and marketing of air transport services;
 - (iii) computer reservation system services;
 - (iv) specialty air services;
 - (v) ground handling services; and
 - (vi) airport operation services; or
- (d) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

4. This Chapter does not impose any obligation on a Party with respect to a national of the other Party seeking access to its employment market, or employed on a permanent basis in its territory, and does not confer any right on that national with respect to that access or employment.

5. This Chapter shall not apply to services supplied in the exercise of governmental authority in a Party's territory. **A service supplied in the exercise of governmental authority** means any service which is supplied neither on a commercial basis nor in competition with one or more service suppliers.

Article 8.2: National Treatment

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances¹, to its own service suppliers.

Article 8.3: Most-Favored-Nation Treatment

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of a non-Party.

¹ For greater certainty, whether treatment is accorded in "like circumstances" under Articles 8.2 or 8.3 depends on the totality of the circumstances, including whether the relevant treatment distinguishes between services or service suppliers on the basis of legitimate public welfare objectives.

Article 8.4: Market Access

Neither Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:
 - (i) the number of service suppliers, whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test;
 - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of service operations or the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;² or
 - (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or
- (b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

Article 8.5: Local Presence

Neither Party may require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

Article 8.6: Non-Conforming Measures

1. Articles 8.2 through 8.5 shall not apply to:

² Subparagraph (a)(iii) does not cover measures of a Party that limit inputs for the supply of services.

- (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
 - (ii) a local level of government;³
- (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
- (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 8.2, 8.3, 8.4, or 8.5.

2. Articles 8.2 through 8.5 shall not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities as set out in its Schedule to Annex II.

Article 8.7: Domestic Regulation

1. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective, and impartial manner.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, while recognizing the right to regulate and to introduce new regulations on the supply of services in order to meet national policy objectives, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and

³ For Korea, local level of government means a local government as defined in the *Local Autonomy Act*.

- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. In determining whether a Party is in conformity with its obligations under subparagraph 2(a), international standards of relevant international organizations⁴ applied by that Party shall be taken into account.

4. If a Party requires authorization for the supply of a service, it shall ensure that its competent authorities:

- (a) within a reasonable period of time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application;
- (b) to the extent practicable, establish an indicative timeframe for the processing of an application;
- (c) on request of the applicant, provide, without undue delay, information concerning the status of the application;
- (d) in the case of an incomplete application and on request of the applicant, identify, where practicable, all the additional information that is required to complete the application, and provide the opportunity to remedy deficiencies within a reasonable time frame;
- (e) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing, and upon request and without undue delay, provide the reasons for such action. Consistent with the denying Party's domestic laws and regulations, the applicant will have the possibility of resubmitting, at its discretion, a new application;
- (f) to the extent permissible under its laws and regulations, do not require physical presence in the territory of a Party for the submission of an application for a license or qualification;
- (g) endeavor to accept applications in electronic format under the equivalent conditions of authenticity as paper submissions, in accordance with its laws and regulations; and

⁴ "Relevant international organizations" refers to international bodies whose membership is open to the relevant bodies of the Parties.

- (h) if they deem appropriate, accept copies of documents that are authenticated in accordance with the Party's laws in place of original documents.

5. Each Party shall ensure that any authorization fee⁵ charged by any of its competent authorities is reasonable, transparent and does not, in itself, restrict the supply of the relevant service.

6. If licensing or qualification requirements include the completion of an examination, each Party shall, to the extent practicable, ensure that:

- (a) the examination is scheduled at reasonable intervals; and
- (b) a reasonable period of time is provided to enable interested persons to submit an application.

7. Paragraphs 1 through 6 shall not apply to a sector or measure to the extent that such sector or measure is not subject to Article 8.2 or Article 8.4 by reason of a Party's commitments made in accordance with Article 8.6.

8. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement.⁶

Article 8.8: Transparency in Developing and Applying Regulations⁷

Further to Chapter Nineteen (Transparency):

- (a) each Party shall establish or maintain appropriate mechanisms for responding to inquiries from interested persons regarding its regulations relating to the subject matter of this Chapter⁸;

⁵ For the purposes of this paragraph, authorization fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

⁶ For greater certainty, nothing in Article 8.7 prejudices either Party's position in any other forum with regard to matters covered by Article 8.7.

⁷ For greater certainty, "regulations" includes regulations establishing or applying to licensing authorization or criteria at the central and local levels of government.

⁸ The implementation of the obligation to maintain or establish appropriate mechanisms may need to take into account the resource and budget constraints of small administrative agencies.

- (b) if, consistent with Article 19.1.2, a Party does not provide advance notice of and opportunity for comment on regulations it proposes to adopt relating to the subject matter of this Chapter, it shall, to the extent possible, address in writing the reasons for not doing so; and
- (c) to the extent possible, each Party shall allow reasonable time between publication of final regulations relating to the subject matter of this Chapter and their effective date.

Article 8.9: Recognition

1. For purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 5, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.

2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 8.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. On request of the other Party, a Party shall promptly provide information, including appropriate descriptions, concerning any recognition agreement or arrangement that the Party or relevant bodies in its territory has concluded.

4. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in the other Party's territory should be recognized.

5. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its

standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

Article 8.10: Payments and Transfers⁹

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.
2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.
3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:
 - (a) bankruptcy, insolvency, or the protection of the rights of creditors;
 - (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
 - (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
 - (d) criminal or penal offences; or
 - (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

Article 8.11: Denial of Benefits

A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is an enterprise owned or controlled by persons of a non-Party or of the denying Party that has no substantial business activities in the territory of the other Party. If, before denying the benefits of this Chapter, the denying Party knows that the enterprise has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the enterprise, the denying Party

⁹ For greater certainty, Annex 8-A shall apply to Article 8.10.

shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the other Party's request.

- (a) in the event of serious balance of payments or external financial difficulties or threat thereof; or
- (b) where, in exceptional circumstances, payments and capital movements cause or threaten to cause serious difficulties for the operation of monetary policy or exchange rate policy in either Party.

2. The measures referred to in paragraph 1 shall:

- (a) not exceed a period of one year; however, under exceptional circumstances and for justified reasons a Party may extend the period for application of such measures for an additional year. The Party seeking an extension shall notify in advance to the other Party of such extension;

Annex I

Schedule of Korea

Explanatory Notes

1. The Schedule of a Party to this Annex sets out, pursuant to Article 8.6 (Non-Conforming Measures), the Party's existing measures that are not subject to some or all of the obligations imposed by:

- (a) Article 8.2 (National Treatment);
- (b) Article 8.3 (Most-Favored-Nation Treatment);
- (c) Article 8.4 (Market Access); or
- (d) Article 8.5 (Local Presence).

2. Each Schedule entry sets out the following elements:

- (a) **Sector** refers to the sector for which the entry is made;
- (b) **Obligations Concerned** specifies the article(s) referred to in paragraph 1 that, pursuant to Article 8.6.1(a), do not apply to the non-conforming aspects of the law, regulation, or other measure, as set out in paragraph 3;
- (c) **Level of Government**¹ indicates the level of government maintaining the scheduled measure(s);
- (d) **Measures**² identifies the laws, regulations, or other measures for which the entry is made. A measure cited in the **Measures** element:
 - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement; and
 - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and

¹ If none is specified, the measure is maintained at the central level of government.

² For greater certainty, in the case of Korea, a change in the level of government at which a measure is administered or enforced does not, by itself, decrease the conformity of the measure with the obligations referred to in Article 8.6.1.

- (e) **Description** sets out commitments, if any, for liberalization on the date of entry into force of this Agreement, and the remaining non-conforming aspects of the measure for which the entry is made.

3. In the interpretation of a Schedule entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant articles against which the entry is made. To the extent that:

- (a) the **Measures** element is qualified by a liberalization commitment from the **Description** element, the **Measures** element as so qualified shall prevail over all other elements; and
- (b) the **Measures** element is not so qualified, the **Measures** element shall prevail over all other elements, unless any discrepancy between the **Measures** element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the **Measures** element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.

4. In accordance with Article 8.6.1(a), and subject to Article 8.6.1(c), and the articles of this Agreement specified in the **Obligations Concerned** element of an entry do not apply to the non-conforming aspects of the law, regulation, or other measure identified in the **Measures** element of that entry.

5. For Korea, a **foreign person** means a foreign national or an enterprise organized under the laws of another country.

6. For greater certainty, Local Presence (Article 8.5) and National Treatment (Article 8.2) are separate disciplines and a measure that is only inconsistent with Local Presence (Article 8.5) need not be reserved against National Treatment (Article 8.2).

However, public companies must accrue these exemptions in their entirety, through the fulfillment of obligations of a social nature of universal service or the execution of resolutions provided by *ARCOTEL* (Telecommunications Regulatory and Control Agency), subject to the public policies issued by the Ministry of Telecommunications.

Cross subsidies are not allowed to telecommunications services providers that have enabling titles by delegation, including subscription broadcasting; whereas telecommunications services providers that have an enabling title by authorization may apply such subsidies, only in the case of universal service, in order to comply with their constitutional obligations, observing for this purpose the concepts of social profitability.³

Description:	<u>Cross-Border Trade in Services</u>

In international maritime transport to and from Ecuador, the principle of effective reciprocity shall be complied with. Effective reciprocity is understood as the access that foreign vessels have for the transport of import and export cargo that Ecuador generates, under the same conditions of access that are granted to ships of Ecuadorian flag or to ships chartered or operated by national shipping companies, by the respective foreign country.

The Undersecretariat of Ports and Maritime and River Transport may temporarily establish restrictions against companies or vessels flying the flag of third countries, when the counterpart countries impose them on ships owned, chartered or operated by Ecuadorian shipping companies. In any case, free competition in export shipping will not be affected. The adoption of restrictive, exclusionary or cargo reservation measures, when the principle of reciprocity has been restricted by another country, may be requested by the national shipping companies concerned.

Reciprocal and proportional restrictions will be imposed against foreign shipping companies,

when the Ecuadorian shipping company has limitations for the transport of import cargo from the country to which the foreign shipping company belongs, or of import or export cargo of such country from third countries.

The restrictions will be partial or total, depending on the restrictions on cargo access imposed by other countries, which means that the foreign shipping company may continue in traffic to or from Ecuador, but limited in the same proportion as the Ecuadorian shipping company.

Traffic exclusions entail the prohibition of entry into Ecuador of vessels of foreign companies belonging to the country that also prevent the free participation of Ecuadorian shipping companies in traffic with that country or in traffic between that country and third countries.

CHAPTER NINE

TEMPORARY ENTRY FOR BUSINESS PERSONS

Article 9.1: General Principles

1. This Chapter reflects the preferential trading relationship between the Parties, the Parties' mutual desire of facilitating temporary entry for business persons in accordance with their legislation and the provisions in Annex 9-A and of establishing transparent criteria and procedures for temporary entry for business persons as well as the need to ensure border security and to protect the domestic labor force and permanent employment in their respective territories.

2. This Chapter shall not apply to measures affecting natural persons of a Party seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, nationality, residence, or employment on a permanent basis.

3. Nothing in this Agreement shall prevent a Party from applying measures to regulate the entry of natural persons into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to unduly nullify or impair the benefits accruing to the other Party under this Chapter.

4. The sole fact that a Party requires business persons of the other Party to obtain an immigration formality shall not be regarded as nullifying or impairing the benefits accruing to the other Party under this Chapter.

Article 9.2: General Obligations

Each Party shall apply its measures related to this Chapter in accordance with Article 9.1 and, in particular, shall expeditiously apply those measures so as to avoid unduly nullifying or impairing the benefits accruing to the other Party or delaying trade in goods or services or conduct of investment activities under this Agreement.

Article 9.3: Grant of Temporary Entry

1. The Parties may make commitments in respect of temporary entry of business persons. Such commitments and the conditions governing them shall be inscribed in Annex 9-A.

2. A Party shall grant temporary entry or extension of temporary stay to business persons of the other Party to the extent provided for in those commitments made pursuant to paragraph 1, provided that those business persons:

- (a) follow the granting Party's prescribed application procedures for the relevant immigration formality; and
- (b) meet all relevant eligibility requirements for temporary entry or extension of temporary stay and other related measures, such as those related to public health and safety and national security.

3. Each Party shall ensure that fees charged by its competent authorities for the processing of an application for an immigration formality are reasonable, in that they do not unduly nullify or impair the benefits accruing to the other Party or delay trade in goods or services or conduct of investment activities under this Agreement.

4. The sole fact that a Party grants temporary entry to a business person of the other Party pursuant to this Chapter shall not be construed to exempt that business person from meeting any applicable licensing or other requirements, including any mandatory codes of conduct, to practice a profession or otherwise engage in business activities.

Article 9.4: Transparency

1. Further to Article 19.1 (Publication), each Party shall:

- (a) provide to the other Party such materials as will enable the other Party to become acquainted with its measures relating to this Chapter;
- (b) no later than six months after the date of entry into force of this Agreement, prepare, publish, and make available in its own territory, and in the territory of the other Party, explanatory material in a consolidated document regarding the requirements for temporary entry under this Chapter including information on applicable laws and regulations in such a manner as will enable business persons of the other Party to become acquainted with them; and
- (c) upon modifying or amending an immigration measure that affects the temporary entry of business persons, ensure that such modifications or amendments are promptly published and made available in such a manner as will enable business

persons of the other Party to become acquainted with them.

2. Further to Article 19.1 (Publication), each Party shall establish or maintain appropriate mechanisms to respond to inquiries from interested persons regarding applications and procedures related to the temporary entry of business person.

3. On the request of the applicant, the Party shall endeavor to provide, without undue delay, information on the status of the application or the decision about the application.

Article 9.5: Working Group

1. The Parties hereby establish a Working Group on Temporary Entry of Business Persons (hereinafter referred to as the “Working Group”), composed of government representatives of each Party, to consider and review matters pertaining to this Chapter with a view to facilitating temporary entry of business persons between the Parties.

2. The Working Group shall meet, when necessary, to consider matters pertaining to this Chapter, such as:

- (a) the implementation and administration of this Chapter;
- (b) the establishment of procedures for the exchange of information on measures affecting the temporary entry under this Chapter;
- (c) the development of measures to further facilitate temporary entry of business persons;
- (d) any other measures of mutual interest related to this Chapter; and
- (e) any other issues related to this Chapter as determined by the Joint Committee.

Article 9.6: Cooperation

Taking into consideration the principles set forth in Article 9.1, the Parties shall endeavor as far as possible to:

- (a) cooperate to strengthen the institutional capacity and promote technical assistance between the immigration authorities; and

- (b) exchange information and experiences on regulations and implementation of programs and technology in the context of immigration matters, including those related to the use of biometric technology, advanced information systems for passengers and security in travel documents.

Article 9.7: Dispute Settlement

1. The relevant authorities of both Parties shall endeavor to favorably resolve any problems that may arise from the implementation and administration of this Chapter.

2. If both Parties cannot reach agreement with regard to any specific issues raised from the implementation and administration of this Chapter as provided for in paragraph 1, Chapter Twenty (Dispute Settlement) shall apply to the issues.

3. A Party shall not initiate proceedings under Chapter Twenty (Dispute Settlement) regarding a refusal to grant temporary entry under this Chapter unless:

- (a) the matter involves a pattern of practice; and
- (b) the affected business person has exhausted the available administrative remedies regarding the particular matter.

4. The remedies referred to in subparagraph 3(b) shall be deemed to be exhausted if a final determination in the matter has not been issued by the competent authority within one year of the institution of an administrative proceeding, and the failure to issue a determination is not attributable to delay caused by the business person.

Article 9.8: Relation to Other Chapters

1. Nothing in this Agreement shall impose any obligation on a Party regarding its immigration measures, except as specifically identified in this Chapter and Chapters One (Initial Provisions and Definitions), Nineteen (Transparency), Twenty (Dispute Settlement), Twenty-One (Exceptions), and Twenty-Three (Final Provisions).

2. Nothing in this Chapter shall be construed to impose obligations or commitments with respect to other Chapters and their Annexes of this

Agreement.

- (c) cross-border trade in financial services.

- (a) Paragraphs on Transfers and Denial of Benefits contained in Understanding on the Definitions and Obligations Regarding Investment, and Article 8.11 (Denial of Benefits) are hereby incorporated into and made part of this Chapter.
- (b) Article 8.10 (Payments and Transfers) is incorporated into and made part of this Chapter to the extent that cross-border trade in financial services is subject to obligations under Article 10.5

3. This Chapter shall not apply to measures adopted or maintained by a Party relating to:

- (a) activities or services forming part of a public retirement plan or statutory system of social security; or
- (b) activities or services conducted for the account or with the guarantee or using the financial resources of the Party, including its public entities,

4. This Chapter shall not apply to laws, regulations, or requirements governing the procurement by government agencies of financial services purchased for governmental purposes and not with a view to commercial resale or use in the supply of services for commercial sale.

Article 10.2: National Treatment

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords to its own investors, in like circumstances¹, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments in financial institutions in its territory.

2. Each Party shall accord to financial institutions of the other Party and to investments of investors of the other Party in financial institutions treatment no less favourable than that it accords to its own financial institutions, and to investments of its own investors in financial institutions, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments.

3. For the purposes of the national treatment obligations in Article 10.5.1, a Party shall accord to cross-border financial service suppliers of the other Party treatment no less favourable than that it accords to its own financial service suppliers, in like circumstances, with respect to the supply of the relevant service.

Article 10.3: Most- Favoured -Nation Treatment

Each Party shall accord to investors of the other Party, financial institutions of the other Party, investments of investors in financial institutions, and cross-border financial service suppliers of the other Party treatment no less favourable than that it accords to the investors, financial institutions, investments of investors in financial institutions, and cross-border financial service suppliers of a non-Party, in like circumstances.

Article 10.4: Market Access for Financial Institutions

¹ For greater certainty, whether treatment is accorded in “like circumstances” under Articles 10.2 or 10.3 depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors, investments, financial institutions or financial service suppliers on the basis of legitimate public welfare objectives.

A Party shall not adopt or maintain, with respect to financial institutions of the other Party or investors of the other Party seeking to establish such institutions, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:
 - (i) the number of financial institutions whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirements of an economic needs test;
 - (ii) the total value of financial service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of financial service operations or on the total quantity of financial services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;² or
 - (iv) the total number of natural persons that may be employed in a particular financial service sector or that a financial institution may employ and who are necessary for, and directly related to, the supply of a specific financial service in the form of numerical quotas or the requirement of an economic needs test; or

2. Each Party shall permit persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of the other Party located in the territory of the other Party. This obligation does not require a Party to permit such suppliers to do business or solicit in its territory. Each Party may define “doing business” and “solicitation” for the purposes of this obligation, provided that those

² Subparagraph (a)(iii) does not cover measures of a Party which limit inputs for the supply of financial services.

definitions are not inconsistent with paragraph 1.

3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration or authorization of cross-border financial service suppliers of the other Party and of financial instruments.

Article 10.6: New Financial Services³

Each Party shall permit a financial institution of the other Party to supply any new financial service that the Party would permit its own financial institutions, in like circumstances, to supply without additional legislative action by the Party. Notwithstanding Article 10.4(b), a Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party requires a financial institution to obtain authorization to supply a new financial service, the Party shall decide within a reasonable time whether to issue the authorization and the authorization may be refused only for prudential reasons.

Article 10.7: Treatment of Certain Information

Nothing in this Chapter requires a Party to furnish or allow access:

- (a) to information related to the financial affairs and accounts of individual customers of financial institutions or cross-border financial service suppliers; or

1. Neither Party shall require financial institutions of the other Party to engage individuals of any particular nationality as senior managerial or other essential personnel.

³ The Parties understand that nothing in Article 10.6 shall prevent a financial institution of a Party from applying to the other Party to request that it authorize the supply of a financial service that is supplied in neither Party's territory. Such application shall be subject to the laws and regulations of the Party to which the application is made and, for greater certainty, shall not be subject to the obligations of Article 10.6.

2. Neither Party shall require that more than a minority of the board of directors of a financial institution of the other Party be composed of nationals of the Party, persons residing in the territory of the Party, or a combination thereof.

Article 10.9: Non-Conforming Measures

2. Articles 10.2 through 10.5 and 10.8 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out by the Party in Section B of its Schedule set out in Annex III.

Where such measures do not conform to the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party's commitments or obligations under such provisions.

Where it is not practicable for a decision to be made within 120 days, the competent authority shall notify the applicant without undue delay and shall endeavour to make the decision within a reasonable time thereafter.

10. On request of an unsuccessful applicant, the competent authority that has denied an application shall, to the extent possible, inform the applicant of the reasons for denial of the application.

2. Consultations under this Article shall include officials of the authorities specified in Annex 10-C.

3. Section B: Transfer of Information

Each Party shall allow a financial institution of the other Party to transfer information in electronic or other form, into and out of its territory, for data processing if such processing is required in the institution's ordinary course of business. Nothing in this Section restricts the right of a Party to adopt or maintain measures to:

- (a) protect personal data, personal privacy and the confidentiality of individual records and accounts; or
- (b) require a financial institution to obtain prior authorization from the authority to designate a particular enterprise as a recipient of such information, based on prudential considerations,

provided that this right is not used as a means of avoiding the Party's commitments or obligations under this Section.

Section C: Government Sponsored Policy Implementing Entities

Annex 10-C
Committee On Financial Services

The authorities responsible for financial services are:

- (a) for Korea, the Financial Services Commission and the Ministry of Industry, Trade and Energy or their successors; and
- (b) for Ecuador, the Financial Policy and Regulation Board and the Ministry of Production, Foreign Trade, Investments and Fisheries.

Understanding on the Definitions and Obligations Regarding Investment

The understanding was reached between the delegations of Korea and Ecuador, during the course of negotiations, on the need for the following definitions and obligations regarding investment in this Agreement.

For the purpose of Chapter One (Initial Provisions and General Definitions) and Chapter Ten (Financial Services);

investment means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

- (a) an enterprise;
- (b) shares, stock, and other forms of equity participation in an enterprise;
- (c) bonds, debentures, other debt instruments, and loans;¹³
- (d) futures, options, and other derivatives;
- (e) turnkey, construction, management, production, concession, revenue-sharing, and other similar contracts;
- (f) intellectual property rights;
- (g) licenses, authorizations, permits, and similar rights conferred pursuant to domestic law;^{14 15} and

¹³ Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt are less likely to have such characteristics.

¹⁴ Whether a particular type of license, authorization, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorizations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorization, permit, or similar instrument has the characteristics of an investment.

¹⁵ The term “investment” does not include an order or judgment entered in a judicial or administrative action.

- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges.¹⁶

investment does not mean:

- (a) public debt operation¹⁷; or
- (b) a claim to payment that arises solely from the commercial sale of goods and services, unless it is a loan that has the characteristics of an investment.

investor of a non-Party means, with respect to a Party, an investor that attempts to make¹⁸, is making, or has made an investment in the territory of that Party, that is not an investor of either Party;

investor of a Party means a Party or state enterprise thereof, or a national or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of the other Party; provided, however, that a natural person who is a dual national shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

For the purpose of Chapter Ten (Financial Services);

Transfers¹⁹

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

- (a) contributions to capital, including the initial contribution;

¹⁶ For greater certainty, market share, market access, expected gains, and opportunities for profit-making are not, by themselves, investments.

¹⁷ Notwithstanding, public debt operations are subject to non-discriminatory treatment.

¹⁸ For greater certainty, the Parties understand that, for purposes of the definitions of “investor of a non-Party” and “investor of a Party,” an investor “attempts to make” an investment when that investor has taken concrete action or actions to make an investment, such as channeling resources or capital in order to set up a business, or applying for a permit or license.

¹⁹ For greater certainty, Annex 8-A (Transfers) applies to this Paragraph.

- (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;
 - (c) interest, royalty payments, management fees, and technical assistance and other fees;
 - (d) payments made under a contract, including a loan agreement;
 - (e) payments arising out of a dispute.
2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.
3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of the other Party.
4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws relating to:
- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
 - (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
 - (c) criminal or penal offenses;
 - (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
 - (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if persons of a non-Party own or control the enterprise and the denying Party:

- (a) does not maintain normal economic relations with the non-Party; or
- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if the enterprise has no substantial business activities in the territory of the other Party and persons of a non-Party, or of the denying Party, own or control the enterprise. If, before denying the benefits of this Chapter, the denying Party knows that the enterprise has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the enterprise, the denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the other Party's request.

This Understanding shall constitute an integral part of this Agreement.

Headnotes

1. Commitments in these subsectors under this Agreement are undertaken subject to the limitations and conditions set forth in these headnotes and in the Schedules below.
2. To clarify the commitment of Korea with respect to Article 10.4 (Market Access for Financial Institutions), juridical persons supplying financial services and constituted under the law of Korea are subject to non-discriminatory limitations on juridical form.¹
3. The commitments of Korea under Articles 10.2 (National Treatment) and 10.4 (Market Access for Financial Institutions) are subject to the limitation that in order to establish or acquire a controlling interest in a financial institution in Korea, a foreign investor must own or control a financial institution that engages in supplying financial services within the same financial services subsector in its home country.
4. Korea limits its commitments under Article 10.9.1(c) with respect to Article 10.4 (Market Access for Financial Institutions) in the following manner: Article 10.9.1(c) shall apply only to non-conforming measures relating to 10.4(a) and not to those non-conforming measures relating to Article 10.4(b).²

¹ For example, partnerships and sole proprietorship are generally not acceptable juridical forms for depository financial institutions in Korea. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

² For greater certainty, Article 10.3 (Most-Favored-Nation Treatment) shall not apply with regard to the limitation in the application of Article 10.9.1(c) described above in paragraph 4.

In this regard, the Parties agree that:

Further to Article 12.1.6, the obligations contained in Articles 12.3, 12.14 and 12.15 shall not apply to the non-conforming aspects of the Parties’ measures related to the supply of a service by a service supplier of a Party, through commercial presence in the territory of the other Party to the extent that such measures are adopted or maintained in accordance with any terms, limitations, qualifications, and conditions specified in a Party’s commitments, or are with respect to a sector that is not subject to a Party’s commitments, made in accordance with Article XX (Schedules of Specific Commitments) of the GATS.

2. Except as otherwise provided in this Chapter, including in Article 13.35, a Party shall not be required to restore protection to the subject matter that on the date this Agreement enters into force has fallen into the public domain in the territory of the Party where the protection is claimed.

Each Party shall have the authority to determine access to its genetic resources in accordance with its domestic legislation and endeavor to create conditions to facilitate transparent access to its genetic resources for environmentally sound uses.

³ For greater certainty, a Party may satisfy the requirement in Article 13.6 to publish a law, regulation, or procedure by making it available to the public on the Internet.

3. Section C: Geographical Indications

Article 13.8: Definitions

For the purposes of this Chapter, geographical indications are indications which identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin.

Article 13.9: Protection of Geographical Indications

Each Party shall ensure in its laws and regulations adequate and effective means to protect geographical indications. 1. Each Party shall establish or maintain domestic administrative procedures for the registration and protection of geographical indications, whether through a trademark or a *sui generis* system.
2. With respect to the procedures referred to in paragraph 1, each Party shall with regard to applications for that protection:

3. With respect to the procedures referred to in paragraph 1, each Party shall provide procedures that allow interested persons to oppose the protection of a geographical indication, and that allow for any such protection to be refused at least on the ground that the geographical indication is a term customary in common language as the common name⁴ for the relevant good in the territory of the Party.

Article 13.11: Date of Protection of a Geographical Indication

The protection of a geographical indication through a Party's domestic administrative procedures referred to in Article 13.10 shall commence no earlier than the filing date⁵ or registration date of the application for the protection in that Party or the registration date in that Party.

Article 13.12: Limitations

⁴ Where a Party applies Article 13.10 to geographical indications for wines and spirits or applications for those geographical indications, the Parties understand that nothing in this Section shall require a Party to protect a geographical indication of the Party with respect to products of the vine for which the relevant indication is identical with the customary name of a grape variety that exists in the territory of that Party.

⁵ For greater certainty, where a Party protects a geographical indication through its trademark system, the filing date referred to in this Article includes, as applicable, the priority filing date under the Paris Convention.

This Section shall not prejudice the rights and obligations under free trade agreements that each Party previously concluded with a non-Party.

Section D: Trademarks

Article 13.13: Trademarks Protection

In the case of the use of an identical sign, for identical goods or services, a likelihood of confusion shall be presumed. The rights described above shall not prejudice any existing prior rights, nor shall they affect the possibility of Parties making rights available on the basis of use.
3. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than 10 years.
4. The nature of the goods or services to which a trademark is to be applied shall in no case form an obstacle to registration of the trademark.

Article 13.14: Term Customary in Common Language

Each Party shall ensure that its measures mandating the use of the term customary in common language as the common name for a good or service (common name), including, *inter alia*, requirements concerning the relative size, placement or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such good or service.

⁶ A Party may require an adequate description, or graphical representation, or both, as applicable, of the trademark.

Article 13.15: Exceptions

3. Each Party shall provide for appropriate measures to refuse or cancel the registration and prohibit the use of a trademark or geographical indication that is identical or similar to a well-known trademark, for related goods or services, if the use of that trademark or geographical indication is likely to cause confusion, or to cause mistake, or to deceive or risk associating the trademark or geographical indication with the owner of the well-known trademark, or to dilute⁸ the distinctiveness or reputation⁹ of the well-known trademark or constitutes unfair exploitation of the reputation of the well-known trademark.

Article 13.17: Registration and Application of Trademarks

⁷ For purposes of determining whether a mark is well-known, neither Party shall require that the reputation of the trademark extend beyond the sector of the public that normally deals with the relevant goods or services.

⁸ For the purposes of this Article, Korea considers that "the dilution of distinctiveness or reputation of a well-known trademark" is defined as provided in Article 34.1.11 of the *Trademark act of Korea* (Act No. 18999, Dec. 18, 2022).

publication, they appear in different classes of the Nice Classification.

Section E: Patents

Article 13.23: Claimed Invention

1. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

2. Each Party shall provide that a claimed invention:

- (a) is sufficiently supported by its disclosure if the disclosure allows a person skilled in the art to extend the teaching therein to the entire scope of the claim, thereby showing that the applicant does not claim subject matter which the applicant had not recognized and described or possessed on the filing date; and
- (b) is industrially applicable if it has a specific, substantial, and credible utility.

Article 13.24: Accelerated Examination

Each Party may provide an applicant with accelerated examination for the patent application on conditions, among others, that the claimed invention is:

- (a) being practiced after publication of the application by a person other than the applicant; or
- (b) being practiced or being prepared to be practiced by the patent applicant.

Article 13.25: Simplification of Procedures

If appropriate, the competent judicial authorities may also order the destruction of materials and implements principally used in the creation or manufacture of those goods.

Article 13.58: Experts' Costs

In the event that a Party's judicial or other competent authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties to the litigation bear the costs of such experts, the Party should seek to ensure that such costs are closely related, *inter alia*, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

Article 13.59: Alternative Dispute Resolution

Each Party shall permit use of alternative dispute resolution procedures to resolve civil disputes concerning copyright and related rights.

Article 13.60: Provisional Measures

1. Each Party shall act on requests for provisional measures *inaudita altera parte* expeditiously.

Sub-Section C: Special Requirements Related to Border Measures

Article 13.61: Information Provided by Right Holders to Competent Authorities

Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods²¹ into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognizable by its competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures. Each Party shall provide that the application to suspend the release of goods shall apply to all points of entry to its territory.

Article 13.62: Reasonable Security or Assurance

Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that the security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party may provide that the security may be in the form of a bond conditioned to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

²¹ For purposes of Articles 13.61 through 13.66:

counterfeit trademark goods means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

pirated copyright goods means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

Article 13.63: Information Provided by Competent Authorities to Right Holders

Where its competent authorities have made a determination that goods are counterfeit or pirated, a Party shall inform the right holder within maximum 30 days of the determination of the names and addresses of the consignor or importer, and provide to the right holder a description of the merchandise, the quantity of the merchandise, and, if known, the country of origin of the merchandise.

Article 13.64: *Ex Officio* Borders Enforcement

Article 13.65: Destruction

Each Party shall provide that goods that have been suspended from release by its customs authorities, and that have been forfeited as pirated or counterfeit, shall be destroyed, except in exceptional circumstances. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient, other than in exceptional cases, to permit the release of the goods into the channels of commerce.

Article 13.66: Fees

Where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, each Party shall provide that the fee shall not be set at an amount that unreasonably deters recourse to these measures.

Sub-Section D: Criminal Procedures and Remedies

²² For greater certainty, the Parties understand that *ex officio* action does not require a formal complaint from a private party or right holder.

²³ For purposes of Article 13.64, **in-transit merchandise** means goods under “Customs transit” and goods “transshipped,” as defined in the *International Convention on the Simplification and Harmonization of Customs Procedures* (hereinafter referred to as “Kyoto Protocol”).

- (a) penalties that include sentences of imprisonment or monetary fines sufficient to provide a deterrent to future infringements, consistent with a policy of removing the infringer's monetary incentive. Each Party shall further encourage judicial authorities to impose those penalties at levels sufficient to provide a deterrent to future infringements, including the imposition of actual terms of imprisonment when criminal infringement occurs for purposes of commercial advantage or private financial gain;
- (b) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements used in the commission of the offense, any documentary evidence relevant to the offense, and any assets traceable to the infringing activity. Each Party shall provide that such orders need not individually identify the items that are subject to seizure, so long as they fall within general categories specified in the order;
- (c) that its judicial authorities shall have the authority to order, among other measures, the forfeiture of any assets traceable to the infringing activity;
- (d) that its judicial authorities shall, except in exceptional cases, order:
 - (i) the forfeiture and destruction of all counterfeit or pirated goods, and any articles consisting of a counterfeit mark; and

²⁴ A Party may comply with the obligation in Article 13.67 in relation to exportation of pirated goods through its measures concerning distribution.

- (ii) the forfeiture and/or destruction of materials and implements that have been used in the creation of pirated or counterfeit goods.

Each Party shall further provide that forfeiture and destruction under this subparagraph and subparagraph (c) shall occur without compensation of any kind to the defendant; and

- (e) that, in criminal cases, its judicial or other competent authorities shall keep an inventory of goods and other material proposed to be destroyed, and shall have the authority temporarily to exempt these materials from the destruction order to facilitate the preservation of evidence on notice by the right holder that it wishes to bring a civil or administrative case for damages.

Article 13.69: Protection of Motion Picture or Audiovisual Work

Each Party shall provide for criminal procedures and penalties to be applied in accordance with its laws and regulations for the willful unauthorized copy of a cinematographic work, or any part thereof, from a performance in a movie theater on a commercial scale.

- (e) the time-frame for delivery of goods or services or the duration of the contract;
- (f) the procurement method that will be used and whether it will involve negotiation or electronic auction;
- (g) where applicable, the address and any final date for the submission of requests for participation in the procurement;
- (h) the address and the final date for the submission of tenders;
- (i) a list and brief description of any conditions for participation of

suppliers, including any requirements for specific documents or certifications to be provided by suppliers in connection therewith, unless such requirements are included in tender documentation that is made available to all interested suppliers at the same time as the notice of intended procurement;

- (j) where, pursuant to Article 14.8, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender;
- (k) an indication that the procurement is covered by this Chapter; and
- (l) the language or languages in which tenders or requests for participation may be submitted, if they may be submitted in a language other than an official language of the Party of the procuring entity.

3. For each case of intended procurement, a procuring entity shall endeavor to publish a summary notice that is readily accessible, at the same time as the publication of the notice of intended procurement. The summary notice shall contain at least the following information:

- (a) the subject-matter of the procurement;
- (b) the final date for the submission of tenders or, where applicable, any final date for the submission of requests for participation in the procurement or for inclusion on a multi-use list; and
- (c) the address or place from which documents relating to the procurement may be requested.

Notice of Planned Procurement

4. Each Party shall encourage its procuring entities to publish prior to or as early as possible in each fiscal year, a notice regarding their procurement plans for that fiscal year. The notice should, at a minimum, include the subject-matter of the procurement and the planned date of the publication of the notice of the intended procurement.

Article 14.7: Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal, commercial, technical, and financial abilities to undertake the relevant procurement.

2. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

- (a) shall evaluate the financial, commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity;
- (b) shall base its evaluation solely on the conditions that a procuring entity has specified in advance in notices or tender documentation;
- (c) shall not impose the condition that, in order for a supplier to participate in a procurement or be awarded a contract, the supplier has previously been awarded one or more contracts by a procuring entity of that Party or that the supplier has prior work experience in the territory of that Party; and
- (d) may require prior experience where essential to meet the requirements of the procurement.

3. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy;
- (b) false declarations;
- (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
- (d) final judgments in respect of serious crimes or other serious offences;
- (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or
- (f) failure to pay taxes.

Article 14.8: Registration and Qualification of Suppliers

Registration Systems and Qualification Procedures

1. Where a Party, including its procuring entities, requires suppliers to register or pre-qualify before being permitted to participate in a covered procurement, that Party, including its procuring entities, shall ensure that a notice inviting suppliers to apply for registration or pre-qualification is published in adequate time to enable interested suppliers to initiate and, to the extent that it is compatible with the efficient operation of the procurement process, to complete the registration and/or qualification procedures.

Selective Tendering

2. Where a Party's domestic law allows the use of selective tendering procedures, a procuring entity shall, for each intended procurement:

- (a) publish a notice inviting suppliers to apply for participation in the procurement sufficiently in advance to provide interested suppliers time to prepare and submit applications and for the entity to evaluate and make its determinations based on such applications; and
- (b) allow all domestic suppliers and suppliers of the other Party that the entity has determined to satisfy the conditions for participation to submit a tender, unless the entity has stated in the notice of intended procurement or, where publicly available, the tender documentation a limitation on the number of suppliers that will be permitted to tender and the criteria for such a limitation.

3. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 2(a), a procuring entity shall ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 2(b).

Multi-Use Lists

4. A procuring entity may establish a multi-use list, provided that the entity annually publishes or otherwise makes available continuously in electronic form a notice inviting interested suppliers to apply for inclusion on the list. The notice shall include:

- (a) a description of the goods and services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;
- (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and
- (e) an indication that the list may be used for procurement covered by this Chapter.

5. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

6. Where a supplier that is not included on a multi-use list for selective tendering submits a request for participation in a procurement based on the multi-use list and all required documents relating thereto, within the time-period provided for in Article 14.9.2, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time-period allowed for the submission of tenders.

Article 14.9: Time Periods

1. A procuring entity shall in accordance with its own reasonable needs, provide suppliers sufficient time to submit applications to participate in a procurement, and to prepare and submit responsive tenders, taking into account the nature and complexity of the procurement.

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended

procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4 and 5, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering set out in paragraph 3 to not less than 10 days:

- (a) where the procuring entity has published a notice in an electronic medium listed in Annex 14-A, containing the information specified in Article 14.6.4 at least 40 days and not more than 12 months in advance;
- (b) in the case of the second or subsequent publication of notices for procurement of a recurring nature; or
- (c) where a state of urgency duly substantiated by the procuring entity renders such time-period impracticable.

5. A procuring entity may reduce the time-period for tendering set out in paragraph 3 by 5 days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the entity accepts tenders by electronic means.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering set out in paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Notwithstanding any other time-period in this Article, where a procuring entity purchases commercial goods or services, it may reduce the time-period for tendering set out in paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. Where the entity also accepts tenders for commercial goods and services by electronic means, it may reduce the time-period set out in paragraph 3 to not less than 10 days.

8. Where a procuring entity in Annex 14-A has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.

Article 14.10: Information on Intended Procurements

Tender Documentation

1. A procuring entity shall promptly provide, upon request, to any supplier interested in participating in a procurement tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders.

2. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings or instructional materials;
- (b) any conditions for participation of suppliers, including any financial guarantees, information, and documents that suppliers are required to submit;
- (c) all evaluation criteria to be considered in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;
- (d) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender

related to the evaluation criteria, on which the auction will be conducted;

- (e) where there will be a public opening of tenders, the date, time, and place for the opening of tenders and, where appropriate, the persons authorized to be present;
- (f) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, e.g., paper or electronic means;
- (g) any dates for the delivery of goods or the supply of services; and
- (h) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means.

3. A procuring entity shall promptly reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

4. If, in tendering procedures, an entity allows tenders to be submitted in foreign languages, one of those languages shall be English.

Technical Specifications

5. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade between the Parties.

6. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

- (a) specify the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
- (b) base the technical specification on international standards, where such exist; otherwise, on national technical regulations, recognized national standards or building codes.

7. Where design or descriptive characteristics are used in the technical

specifications, a procuring entity shall indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfill the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

8. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

9. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

10. For greater certainty, a procuring entity may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

Modifications

11. Where, prior to the award of a contract, a procuring entity modifies the criteria or technical requirements set out in a notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

- (a) to all the suppliers that are participating at the time the information is modified, amended or re-issued if the identities of such suppliers are known, and, in all other cases, in the same manner that the original information was transmitted; and
- (b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

Article 14.11: Limited Tendering

1. Provided that it does not use this provision for the purposes of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 14.6, through

14.9, 14.10.1 through 14.10.4, 14.12, through 14.14 only under the following circumstances:

- (a) provided that the requirements of the tender documentation are not substantially modified where:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted have been collusive.
- (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights or other exclusive rights; or
 - (iii) the absence of competition for technical reasons such as procurement of services “*intuitu personae*”;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where:
 - (i) a change of supplier for such additional goods or services cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) such separation would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) in so far as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in

time using open tendering or selective tendering;

- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers;
- (h) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner; or
- (i) where additional construction services, which were not included in the initial contract but were within the objectives of the original tender documentation have, due to unforeseen circumstances, become necessary to complete the construction services described therein. In such cases, the total value of contracts awarded for additional construction services may not exceed 50 percent of the amount of the initial contract.

2. For each contract awarded under paragraph 1, a procuring entity shall prepare a written report that includes;

- (a) the name of the procuring entity;

- (b) the value and kind of goods or services procured, or the intended value, provided where the value cannot be determined at the time of report; and
- (c) a statement indicating the circumstances and conditions described in paragraph 1 that justify the use of limited tendering.

Article 14.12: Electronic Auctions

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article 14.13: Negotiation

1. A Party may provide for its procuring entities to conduct negotiations:
 - (a) where the entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 14.6; or
 - (b) where it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.
2. A procuring entity shall:
 - (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation

criteria set out in the notice of intended procurement or tender documentation; and

- (b) where negotiations are concluded, if an additional deadline can be provided according to the domestic laws and regulations of the Parties, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 14.14: Treatment of Tenders and Awarding of Contracts

Receipt and Opening of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process.
2. A procuring entity shall treat all tenders in confidence until at least the opening of the tenders. In particular, the procuring entity shall not provide information to particular suppliers that might prejudice fair competition between suppliers.
3. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
4. Where a procuring entity provides suppliers with opportunities to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunities to all participating suppliers.

Awarding of Contracts

5. A procuring entity shall require that in order to be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
6. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the term of the contract and, based solely on the evaluation criteria specified in the notices and tender

documentation, has submitted:

- (a) the most advantageous tender; or
- (b) where price is the sole criterion, the lowest price.

7. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

8. A procuring entity may not cancel a covered procurement, or terminate or modify awarded contracts in a manner that circumvents this Chapter.

Article 14.15: Post-Award Information

1. A procuring entity shall promptly inform suppliers that have submitted tenders of its contract award decision and, on the request of a supplier, shall do so in writing. A procuring entity shall, upon request, provide an unsuccessful supplier with the reasons that the entity did not select that supplier's tender and the relative advantages of the successful supplier's tender.

2. No later than 72 days after award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Schedule included in Annex 14-A. Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:

- (a) a description of the goods or services procured;
- (b) the name and address of the procuring entity;
- (c) the name and address of the successful supplier;
- (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
- (e) the date of award or the contract date; and
- (f) the type of procurement method used, and in cases where limited tendering was used in accordance with Article 14.11, a description of the circumstances justifying the use of limited tendering.

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:

- (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 14.11; and
- (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Article 14.16: Disclosure of Information

1. A Party, upon request of the other Party, shall provide promptly any information necessary to determine whether the procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of this information would prejudice competition in future tenders, the Party that receives that information shall not disclose it to any supplier, except after consultation with, and agreement of, the Party that provided the information.

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities shall not provide to any supplier information that might prejudice fair competition between suppliers.

3. Nothing in this Article shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure would impede law enforcement, might prejudice fair competition between suppliers, would prejudice the legitimate commercial interest of particular persons, including the protection of intellectual property, or would otherwise be contrary to the public interest.

Article 14.17: Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:

- (a) a breach of this Chapter; or
- (b) where the supplier does not have a right to challenge directly a

breach of the Chapter under the domestic law of a Party, a failure to comply with a Party's measures implementing this Chapter

arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the entity and the supplier to seek resolution of the complaint through consultations. The entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall maintain at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review, in a non-discriminatory, timely, transparent and effective manner, complaints that a supplier of a Party submits, in accordance with the Party's domestic law, relating to a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

6. A review body that is not a court shall either be subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;

- (c) the participants shall have the right to be represented and accompanied;
 - (d) the participants shall have access to all proceedings;
 - (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
 - (f) decisions or recommendations relating to supplier challenges shall be provided, in a timely fashion, in writing, with an explanation of the basis for each decision or recommendation.
7. Each Party shall adopt or maintain procedures that provide for:
- (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
 - (b) where a review body has determined that there has been a breach of this Chapter or a failure, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article 14.18: Rectifications and Modifications to Coverage

1. Where a Party modifies its coverage of procurement under this Chapter, the Party shall:
- (a) notify the other Party in writing; and
 - (b) include in the notification a proposal of appropriate compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification.
2. Notwithstanding subparagraph 1(b), a Party shall not be obliged to

provide compensatory adjustments where:

- (a) the modification in question is a minor amendment or a rectification of a purely formal nature; or
- (b) the proposed modification covers an entity over which the Party has effectively eliminated its control or influence.

3. If the other Party does not agree that:

- (a) an adjustment proposed under subparagraph 1(b) is adequate to maintain a comparable level of mutually agreed coverage;
- (b) the proposed modification is a minor amendment or a rectification under subparagraph 2(a); or
- (c) the proposed modification covers a procuring entity over which the Party has effectively eliminated its control or influence under subparagraph 2(b),

it shall object in writing within 30 days following the receipt of the notification referred to in paragraph 1 or be deemed to have agreed to the adjustment or proposed modification, including for purposes of Chapter Twenty (Dispute Settlement).

4. Where the Parties are in agreement on the proposed modification, rectification, or minor amendment, including where a Party has not objected within 30 days under paragraph 3, they shall give effect to the agreement by modifying forthwith Annex 14-A.

Article 14.19: Committee on Government Procurement

1. The Parties hereby establish a Committee on Government Procurement (hereinafter referred to as “Committee”) comprising representatives of each Party.

2. The Committee shall:

- (a) evaluate the implementation of this Chapter, including its application, and recommend to the Parties the appropriate activities;
- (b) coordinate the cooperation activities;

- (c) evaluate and follow up the activities related to cooperation that the Parties present; and
 - (d) consider further negotiations aimed at broadening the coverage of this Chapter.
- 3. The Committee shall meet upon request of a Party or as mutually agreed by the Parties.
- 4. The meetings may also be held, as necessary, via telephone, video conference, or other means as mutually agreed by the Parties.

Article 14.20: Further Negotiations

In case where a Party offers, after the entry into force of this Agreement, to a non-Party additional advantage with regard to its government procurement market access coverage agreed under this Chapter, it shall agree, upon request of the other Party, to enter into negotiations with a view to extending coverage under this Chapter on a reciprocal and mutually beneficial basis.

Article 14.21: Cooperation

- 1. The Parties recognize the importance of cooperation with a view to facilitating better understanding and strengthening capacities to promote better access to their respective markets in accordance with the objectives of this Chapter.

 - (d) capacity building and technical assistance to suppliers with respect to access to the government procurement markets; and
 - (e) capacity building and facilitating multilingual access to procurement opportunities, including English for procurement

related notices.

Article 14.22: Micro, Small, And Medium Enterprises³ Participation

1. The Parties recognize the importance of the participation of micro, small, and medium-sized enterprises (hereinafter referred to as “MSMEs”) in government procurement.
2. The Parties also recognize the importance of business alliances between suppliers of each Party, and in particular of MSMEs, including the joint participation in tendering procedures.
3. The Parties shall endeavor to work jointly towards exchanging information and facilitating access of MSMEs to government procurement procedures, methods, and contracting requirements, focusing on their special needs.

3. If in its report, the arbitration panel finds that a Party's measure does not conform with this Agreement or is causing nullification or impairment in the sense of Article 20.2, it shall include in its findings and determinations a requirement to remove the non-conformity or address the nullification or impairment.

4. After considering any written comments by the Parties to the dispute on the initial report, the arbitration panel may modify its report and make any further examination it considers appropriate.

6. The arbitration panel shall present a final report to the Parties within 30 days of the presentation of the initial report, unless the Parties to the dispute otherwise agree. Where the arbitration panel considers that the deadline for its final report cannot be met, it may extend the period with the consent of the

Article 20.13: Implementation of the Final Report

1. If, in its final report, the arbitration panel determines that the Party complained against has not conformed to its obligations under the relevant provisions of this Agreement or that a Party's measure is causing nullification or impairment in the sense of Article 20.2.1(c), unless the Parties otherwise agree, the Party complained against shall eliminate the non-conformity or the nullification or impairment immediately, or if this is not practicable, within a reasonable period of time.

2. The reasonable period of time referred to in paragraph 1 shall be mutually agreed by the Parties. Where the Parties fail to agree on the reasonable period of time within 45 days of the date of the issuance of the final report of the arbitration panel, either Party may refer the matter to the original arbitration panel, which shall determine the reasonable period of time.

3. The Party complained against shall notify to the complaining Party of the implementing measures that it has taken to comply with the determinations of the arbitration panel before the expiry of the reasonable period of time agreed by the Parties or determined by the original arbitration panel in accordance with paragraph 2. Where there is disagreement between the Parties as to whether the Party complained against has eliminated the non-conformity or the nullification, or impairment within the reasonable period of

time as determined pursuant to paragraph 2, either Party may refer the matter to the original arbitration panel.

The arbitration panel shall issue its report to the Parties within 20 days on the reasonable period of time and 45 days on the other issues after the date when the matter is referred to it. When the arbitration panel considers that it cannot issue its report within the aforementioned periods, the relevant period may be extended by the arbitration panel for a maximum of 30 days with the consent of the Parties. The report shall be binding on the Parties.

Article 20.14: Compensation and Suspension of Benefits in Case of Non-Compliance

1. If the Party complained against fails to notify the implementing measures before the expiry of the reasonable period of time, or notifies to the complaining Party that implementation is impracticable, or the arbitration panel to which the matter is referred pursuant to Article 20.13.3 determines that the Party complained against has failed to: eliminate the non-conformity or the nullification or impairment within the reasonable period of time, the Party complained against shall, if so requested, enter into negotiations with the complaining Party with a view to reaching a mutually satisfactory compensation.

2. If there is no agreement on satisfactory compensation within 20 days of the date of receipt of the request mentioned in paragraph 1, the complaining Party may, at any time, provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of concessions or other obligations under this Agreement. 4. The compensation referred to in paragraph 1 and the suspension referred to in paragraph 2 shall be temporary measures. Neither compensation nor suspension is preferred to full compliance with the findings and determinations in the report of the arbitration panel. The suspension shall only be applied until such time as the non-conformity or the nullification or impairment is fully eliminated or a mutually satisfactory solution is reached.

5. In considering what concessions or other obligations to suspend pursuant to paragraph 2:

- (a) the complaining Party should first seek to suspend concessions or other obligations with respect to the same sector or sectors as that affected by the measure or other matter that the arbitration panel has found to be not in conformity with this Agreement or to have caused nullification or impairment; and
- (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector or sectors, it may suspend concessions or other obligations with respect to other sectors. The notification of such suspension pursuant to paragraph 2 shall indicate the reasons on which it is based; and
- (c) the level of suspension referred to in paragraph 2 shall be equivalent to the level of the nullification or impairment.

6. If the Party complained against considers that the requirements for the suspension of concessions or other obligations by the complaining Party set out in paragraphs 2 through 5 have not been met, it may refer the matter to an arbitration panel.

7. The arbitration panel that is established for purposes of this Article shall, wherever possible, have as its arbitrators, the arbitrators of the original arbitration panel. If this is not possible, then the arbitrators of the arbitration panel that is established for purposes of this Article shall be appointed pursuant to Article 20.9. The arbitration panel established under this Article shall issue its report to the Parties within 45 days after the date on which the matter is referred to it. When the arbitration panel considers that it cannot issue its report within the aforementioned periods, the relevant period may be extended by the arbitration panel for a maximum of 30 days with the consent of the Parties. The report shall be binding on the Parties.
