- (b) import licensing conditioned on the fulfillment of a performance requirement; or
- (c) voluntary export restraints inconsistent with Article VI of GATT 1994, as implemented under Article 18 of the SCM Agreement and Article 8.1 of the AD Agreement.

5. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good of a non-Party from the territory of the other Party, the Parties, on the request of either Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, or distribution arrangements in the territory of the other Party.

6. Neither Party may, as a condition for engaging in importation or for the importation of a good, require a person of the other Party to establish or maintain a contractual or other relationship with a distributor in its territory, except if such relationship is required in accordance with each Party's laws and regulations. At the request of a Party, the Party maintaining such laws and regulations shall provide the other Party with an opportunity to consult on any related issues.

 - (ii) be without prejudice as to whether the import licensing procedure is consistent with this Agreement.
 - (b) Before applying any new or modified import licensing procedure, a Party shall publish, to the extent required by its law, the new procedure or modification on an official government Internet site. To the extent practicable, the Party shall do so at least 30 days before the new procedure or modification takes effect.
3. Neither Party may apply an import licensing procedure to a good of the other Party unless the Party has complied with the requirements of paragraph 2 with respect to that procedure. Where exceptional and critical circumstances requiring immediate action make prior notification impossible, the Party may apply forthwith the procedure necessary to deal with the situation and shall inform the other Party immediately thereof.

ARTICLE 2.11: ADMINISTRATIVE FEES AND FORMALITIES

1. Each Party shall ensure that all fees and charges imposed in connection with importation and exportation shall be consistent with their obligations under Article VIII.1 of GATT 1994 and its interpretive notes, which are hereby incorporated into and made a part of this Agreement, *mutatis mutandis*.

ARTICLE 2.12: EXPORT DUTIES, TAXES, OR OTHER CHARGES

1. Neither Party may adopt or maintain any duty, tax, or other charge on the export of any good to the territory of the other Party, unless the duty, tax, or charge is also adopted or maintained on the good when destined for domestic consumption.
2. Paragraph 1 shall not apply to measures set out in Annex 2-A.

ARTICLE 2.13: STATE TRADING ENTERPRISES

1. The Parties affirm their existing rights and obligations under Article XVII of GATT 1994, its interpretative notes, and the Understanding on the Interpretation of Article XVII of GATT 1994, contained in Annex 1A to the WTO Agreement, which are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. Where a Party requests information from the other Party on individual cases of state trading enterprises, the manner of their operation and the effect of their operations on bilateral trade, the requested Party shall have regard to the need to ensure maximum transparency possible without prejudice to Article XVII.4(d) of GATT 1994 on confidential information.

ARTICLE 2.14: TRADE RELATED NON-TARIFF MEASURES

1. Further to Chapter 16 (Transparency), the Parties recognize the importance of ensuring the transparency of non-tariff measures affecting trade between the Parties and that any such measures should not create an unnecessary obstacle to trade between the Parties.
2. To this end, the Committee on Trade in Goods established in Article 2.17 shall, when a Party identifies a specific non-tariff measure, review the measure and consider approaches that may better facilitate trade between the Parties and present to the Parties the results of its consideration, including any recommendation, within 12 months. If necessary, the results of the consideration and recommendations of the Committee on Trade in Goods shall be submitted to the next meeting of the Joint Committee for consideration or action.

ARTICLE 2.15: TARIFF RATE QUOTA ADMINISTRATION

Where a Party is in serious balance of payments and external financial difficulties, or threat thereof, it may, in accordance with GATT 1994, which includes the Understanding on Balance-of-Payments Provisions of GATT 1994, adopt restrictive import measures. In adopting such measures, the Party shall immediately consult with the other Party.

2. Those conditions indicate, for all goods covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if non-originating materials undergo sufficient working or processing, which results in an originating good, and when that good is used in the subsequent manufacture of another good, no account shall be taken of the non-originating material contained therein.

ARTICLE 3.5: DE MINIMIS

1. A good that does not undergo a change in tariff classification pursuant to Article 3.4.1 and Annex 3-A shall be considered as originating if:

- (a) the value of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the ex-works price of the good; and
- (b) the good meets all other applicable criteria set forth in this Chapter for qualifying as an originating good. Any of the percentages given in Annex 3-A for the maximum value of non-originating materials are not exceeded

¹ If a good is subject to Article 3.4.1, the installation of a substantial software developed in a Party shall be taken into account as a manufacturing process.

through the application of this paragraph.

2. Paragraph 1 shall not apply to:

- (a) a non-originating material used in the production of a good provided for in Chapters 1 through 14 of the Harmonized System (HS); and
- (b) a non-originating material used in the production of a good provided for in Chapters 15 through 24 of the Harmonized System (HS), unless the non-originating material is provided for in a different subheading from that of the good for which the origin is being determined under this Article.

3. A good provided for in Chapters 50 through 63 of the Harmonized System (HS) that is not an originating good, because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in Annex 3-A, shall nonetheless be considered as originating if the total weight of all such fibers or yarns in that component is not more than 10 percent of the total weight of that component.

ARTICLE 3.6: INSUFFICIENT WORKING OR PROCESSING

1. The following operations shall be considered as insufficient working or processing to confer the status of originating goods, whether or not the requirements of Article 3.4 are satisfied:

- (a) preserving operations to ensure that the goods remain in good condition during transport and storage;
- (b) simple² changing of packaging or breaking-up and assembly of packages;
- (c) washing, cleaning, removal of dust, oxide, oil, paint or other coverings;
- (d) simple² painting and polishing operations, including applying oil;
- (e) husking, partial or total bleaching, polishing, and glazing of cereals and rice;
- (f) ironing or pressing of textiles;
- (g) operations to colour sugar or form sugar lumps;

- (i) sharpening, simple² grinding, or simple² cutting;

² “simple” generally describes activities which need neither special skills nor machines, apparatus or equipment especially produced or installed for carrying out the activity.

- (k) affixing or printing marks, labels, logos and other like distinguishing signs on goods or their packaging;
- (l) simple² dilution in water or other substances, providing that the characteristics of the goods remain unchanged;
- (m) simple² testing or calibrations;
- (n) simple² placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple² packaging operations;
- (o) simple² assembly of parts of articles to constitute a complete article or disassembly of goods into parts;
- (p) simple mixing³ of goods, whether or not of different kinds;
- (q) slaughter of animals; or
- (r) a combination of two or more of the above operations.

2. All operations carried out in a Party on a given good shall be considered together when determining whether the working or processing undergone by that good is to be regarded as insufficient within the meaning of paragraph 1.

ARTICLE 3.7: UNIT OF QUALIFICATION

1. The unit of qualification for the application of the provisions of this Chapter shall be the particular good which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System (HS). It follows that:

- (a) When a good composed of a group or assembly of articles is classified under the terms of the Harmonized System (HS) in a single heading, the whole constitutes the unit of qualification;
- (b) When a consignment consists of a number of identical goods classified under the same heading of the Harmonized System (HS), each good must be taken individually when applying the provisions of this Chapter.

2. Where, under General Rule 5 of the Harmonized System (HS), packaging is included with the good for classification purposes, it shall be included for the purposes of determining origin.

³ “simple mixing” generally describes activities which need neither special skills nor machines, apparatus or equipment especially produced or installed for carrying out the activity. However, simple mixing does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which results in a molecule with a new structure by breaking an intramolecular bond.

ARTICLE 3.8: ACCOUNTING SEGREGATION

1. Where identical and interchangeable originating and non-originating materials⁴ are used in the manufacture of a good, those materials shall be physically segregated, according to their origin, during storage.
2. For the purposes of establishing if a good is originating, when in its manufacture are utilized originating and non-originating identical and interchangeable materials, mixed or physically combined, the origin of such materials can be determined by any of the inventory management methods applicable in the Party.
3. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may authorize the so-called “accounting segregation” method to be used for managing such stocks.
4. This method must be able to ensure that, for a specific reference-period, the number of goods obtained which could be considered as “originating” is the same as that which would have been obtained if there had been physical segregation of the stocks.
5. The customs authorities may grant such authorisations, subject to any conditions deemed appropriate.
6. This method is recorded and applied on the basis of the general accounting principles applicable in the Party where the good was manufactured.
7. The beneficiary of this facilitation may issue or apply for Proofs of Origin, as the case may be, for the quantity of goods which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.
8. The customs authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Chapter.

ARTICLE 3.9: ACCESSORIES, SPARE PARTS AND TOOLS

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

ARTICLE 3.10: SETS

⁴ “identical and interchangeable materials” means materials being of the same kind and commercial quality, possessing the same technical and physical characteristics, and which cannot be distinguished from one another for origin purposes, once they are incorporated into the finished good.

Sets, as defined in General Rule 3 of the Harmonized System (HS), shall be regarded as originating when all component goods are originating. Nevertheless, when a set is composed of originating and non-originating goods, the set as a whole shall be regarded as originating, provided that the value of the non-originating goods does not exceed 15 percent of the ex-works price of the set.

ARTICLE 3.11: NEUTRAL ELEMENTS

In order to determine whether a good originates, it shall not be necessary to determine the origin of the goods which might be used in its manufacture but which do not enter and which are not intended to enter into the final composition of the good. Neutral elements, for example, will include:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools; and
- (d) goods which do not enter into and which are not intended to enter into the final composition of the good.

ARTICLE 3.12: PRINCIPLE OF TERRITORIALITY

2. Where originating goods exported from Israel or from Korea to a non-Party, return to the exporting Party, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

- (a) the returning goods are the same as those exported; and
- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that non-Party or while being exported.

3. Notwithstanding paragraphs 1 and 2, the acquisition of originating status in accordance with the conditions set out in this Chapter shall not be affected by working or processing done outside Israel or Korea on materials exported from Israel or from Korea and subsequently re-imported there, provided that:

- (a) the said materials shall be wholly obtained in Israel or in Korea or have undergone working or processing beyond the operations referred to in Article 3.6 prior to being exported;
- (b) it shall be demonstrated to the satisfaction of the customs authorities that:

- (i) the re-imported goods have been obtained by working or processing the exported materials;
 - (ii) such working or processing have not resulted in a change of the classification at a six digit level of the Harmonized System (HS) of the said re-imported goods; and
 - (iii) the total added value⁵ acquired outside Israel or Korea by applying the provisions of this Article does not exceed 10 percent of the ex-works price of the end good for which originating status is claimed.
- (c) The provisions of paragraph 3 shall not apply to goods which do not fulfil the conditions set out in Article 3.4; and
- (d) factual information relevant to subparagraphs (a) through (c) will be indicated in the Certificate of Origin, in accordance with Annex 3-C.

4. Notwithstanding Article 3.1, certain goods shall be considered to be originating even if they have undergone working or processing outside Korea, on materials exported from Korea and subsequently re-imported there, provided that the working or processing is done in the areas designated by the Parties pursuant to Annex 3-B.

ARTICLE 3.13: DIRECT TRANSPORT

1. The preferential treatment provided under this Agreement shall apply only to goods, satisfying the requirements of this Chapter, which are transported directly between Israel and Korea. However, goods constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, under the surveillance of the customs authorities therein, provided that:

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing Party by the production of:

- (a) the transportation documents, such as the airway bill, the bill of lading or the multimodal or combined transportation document, that certify the transport from the country of origin to the importing country;

⁵ (a) For the purposes of applying the provisions of paragraph 3, “total added value” shall be taken to mean all costs arising outside Israel or Korea, including the value of the materials incorporated there.

(b) The total added value as detailed in footnote 5(a) shall be considered as non-originating materials for the purposes of Article 3.4.1.

- (b) a certificate issued by the customs authorities of the non-Party where the goods were in transit, which contains an exact description of the goods, the date and place of the loading and re-loading of the goods in that non-Party, and the conditions under which the good were placed; or
- (c) in the absence of any of the above documents, any other documents that will prove the direct shipment.

3. The Parties agree to discuss, within two years of the date of entry into force of this Agreement, the possibility of a mechanism allowing that originating goods, which are released into a non-Party before being exported to the other Party and did not go through working or processing beyond those defined in Article 3.6, will not lose their originating status, under conditions to be determined by the Parties.

ARTICLE 3.14: EXHIBITIONS

1. Originating goods, sent for exhibition in a non-Party other than Israel or Korea and sold after the exhibition for importation in Israel or in Korea, shall benefit on importation from the provisions of this Agreement, provided it is shown to the satisfaction of the customs authorities that:

5. The customs authority requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the documents are authentic and whether the goods concerned may be considered as goods originating in a party and fulfil the other requirements of this Chapter.

6. If, in cases of reasonable doubt, there is no reply within 10 months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the goods, the requesting customs authority shall, except in exceptional circumstances, refuse entitlement to the preferences.

7. If the customs authority of the importing Party is not satisfied with the results provided by the customs authority of the exporting Party, under exceptional circumstances, the customs authority of the importing Party may conduct a verification in the exporting Party by means of:

 - (iv) the customs authority of the importing Party conducting the verification shall provide the customs authority of the exporting Party with a written determination of whether the goods qualify as originating goods, including findings of fact and the legal basis for the determination.

8. Each Party shall maintain, in accordance with its law, the confidentiality of any information collected pursuant to this Article, and shall protect that information from

disclosure that could prejudice the competitive position of the persons providing the information.

ANNEX 3-A
PRODUCT SPECIFIC RULES OF ORIGIN

Part I – General Interpretative Note

1. For the purposes of interpreting the rules of origin set forth in this Annex:
 - (a) the specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading;
 - (b) the requirement of a change in tariff classification applies only to non-originating materials;
 - (c) where a specific rule of origin is defined using the criterion of a change in tariff classification, the rule will be considered to be met only if each of the non-originating materials used in the production of the good has undergone the change in tariff classification;
 - (d) where a specific rule of origin is defined using the criterion of a change in tariff classification, and it is written to exclude tariff provisions at the level of a chapter, heading, or subheading of the Harmonized System (HS), it shall be construed to mean that the rule of origin requires that materials classified in those excluded provisions be originating for the good to qualify as originating; and
 - (e) when a heading or subheading is subject to alternative specific rules of origin, the rule will be considered to be met if a good satisfies one of the alternatives.
2. For the purposes of this Annex:

section means a section of the HS;

chapter means a chapter of the HS;

heading means the first four digits in the tariff classification number under the HS; and

subheading means the first six digits in the tariff classification number under the HS.

Note:

For the purposes of this chapter, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of this definition:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

For the purposes of heading 2710, the following processes confer origin:

- (a) Atmospheric distillation: A separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions.
- (b) Vacuum distillation: Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation.

A good of any chapter or heading in Section VI that satisfies one or more of Rules 1 through 7 of this Section shall be treated as an originating good, except as otherwise specified in those rules.

Note 2:

Notwithstanding Note 1, a good is an originating good if it meets the applicable change in tariff classification or satisfies the applicable value content requirement specified in the rules of origin in this Section.

Rule 1: Chemical Reaction Origin

A good of Chapters 28 through 38, except goods of heading 3828, that results from a chemical reaction in one or both of the Parties shall be treated as an originating good.

Note:

For the purposes of this section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a good is an originating good:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

Rule 2: Purification

A good of Chapters 28 through 38 that is subject to purification shall be treated as an originating good provided that the purification occurs in one or both of the Parties and results in the following:

- (a) the elimination of not less than 80 percent of the impurities; or
- (b) the reduction or elimination of impurities resulting in a good suitable:
 - (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substance;

- (ii) as a chemical product or reagent for analytical, diagnostic, or laboratory uses;
- (iii) as an element or component for use in micro-elements;
- (iv) for specialized optical uses;
- (v) for non-toxic uses for health and safety;
- (vi) for biotechnical use;

A good of Chapters 30, 31, or 33 through 38, except for heading 3808, shall be treated as an originating good if the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications, resulting in the production of a good having different essential physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials, occurs in one or both of the Parties.

Rule 4: Change in Particle Size

A good of Chapters 30, 31, or 33, shall be treated as an originating good if the deliberate and controlled modification in particle size of the good, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution, or defined surface area, which is relevant to the purposes of the resulting good and having different essential physical or chemical characteristics from the input materials, occurs in one or both of the Parties.

Rule 5: Standards Materials

A good of Chapters 28 through 38 shall be treated as an originating good if the production of standards materials occurs in one or both of the Parties.

For the purposes of this rule, “standards materials” (including standard solutions) are preparations suitable for analytical, calibrating, or referencing uses, having precise degrees of purity or proportions that are certified by the manufacturer.

Rule 6: Isomer Separation

A good of Chapters 28 through 38 shall be treated as an originating good if the isolation or separation of isomers from mixtures of isomers occurs in one or both of the Parties.

Rule 7: Separation Prohibition

A good of Chapters 28 through 38 that undergoes a change from one classification to another in one or more of the Parties as a result of the separation of one or more materials from a man-made mixture shall not be treated as an originating good unless the isolated material underwent a chemical reaction in one or both of the Parties.

Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.

3. Prior to accepting the results of a conformity assessment procedure pursuant to paragraph 2, and in order to enhance confidence in the permanent reliability of each one of the conformity assessment results, the Parties may consult on matters such as the technical competence of the conformity assessment bodies involved. Where a Party considers that a conformity assessment body of the other Party does not fulfil its requirements, it shall explain to the other Party the reasons for its decision.

4. The Parties shall give positive consideration to a request by the other Party to negotiate agreements or arrangements for the mutual recognition of the results of their respective conformity assessment procedures. Within two years after this Agreement enters into force, the Parties shall enter into discussions regarding the possibility of negotiating agreements or arrangements for mutual recognition of the results of their respective conformity assessment procedures in areas mutually agreed upon.

CHAPTER 7 TRADE REMEDIES

Section A: Bilateral Safeguard Measures

ARTICLE 7.1: APPLICATION OF A BILATERAL SAFEGUARD MEASURE

1. If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party may:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement;
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation (MFN) applied rate of duty on the good in effect at the time the action is taken; and
 - (ii) the base rate of customs duty specified in the Schedules included in Annex 2-B (Reduction or Elimination of Customs Duties) pursuant to Article 2.4 (Reduction or Elimination of Customs Duties).

ARTICLE 7.2: CONDITIONS AND LIMITATIONS

1. A Party shall apply a bilateral safeguard measure only following an investigation by the Party's competent authority in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

2. In the investigation described in paragraph 1, the Party shall comply with the requirements of Articles 4.2(a) and 4.2(b) of the Safeguards Agreement, and to this end, Articles 4.2(a) and 4.2(b) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. Each Party shall ensure that its competent authority completes any such investigation within one year of its date of initiation.

4. Neither Party may apply a bilateral safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
- (b) for a period exceeding two years except that the period may be extended by up to one year if the competent authority of the importing Party determines, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; and
- (c) beyond the expiration of the transition period, except if the Committee on Trade in Goods decides otherwise.

5. Bilateral safeguard measures may not be applied in the first year of the transition period.

6. Neither Party may apply a bilateral safeguard measure more than once against the same good.

7. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 1 and shall consult with the other Party in advance of applying a bilateral safeguard measure, with a view to reviewing the information arising from the investigation and exchanging views on the proposed measure, including ways to address any related issues. Such a consultation shall not be construed to prevent the Party from applying a bilateral safeguard measure pursuant to conditions and limitations set out in this Article.

8. Where the expected duration of the bilateral safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

9. When a Party terminates a bilateral safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-B (Reduction or Elimination of Customs Duties), would have been in effect but for the measure.

ARTICLE 7.3: PROVISIONAL MEASURES

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authority that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and that such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. Before a Party's competent authority may make a preliminary determination,

the Party shall publish a public notice in its official journal setting forth how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional bilateral safeguard measure, and shall provide interested parties at least 20 days after the date it publishes the notice to submit evidence and views regarding the application of a provisional measure. A Party may not apply a provisional measure until at least 45 days after the date its competent authority initiates an investigation.

3. The applying Party shall notify the other Party before applying a bilateral safeguard measure on a provisional basis. At the request of the other Party, the Party intending to take a provisional measure, shall offer the possibility for consultations in advance of applying the provisional measure. If due to critical circumstances, consultations cannot be held prior to applying the provisional measure, the consultations shall take place immediately following the application of the provisional measure.

4. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 7.2.1 and 7.2.2.

5. The Party shall promptly refund any tariff increases if the investigation described in Article 7.2.1 does not result in a finding that the requirements of Article 7.1 are met. The duration of any provisional measure shall be counted as part of the period described in Article 7.2.4(b).

ARTICLE 7.4: COMPENSATION

1. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.

3. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the bilateral safeguard measure terminates.

4. Any compensation shall be based on the total period of application of the provisional bilateral safeguard measure and of the bilateral safeguard measure.

ARTICLE 7.5: GLOBAL SAFEGUARD MEASURES

1. Each Party retains its rights and obligations under Article XIX of GATT 1994, the Safeguards Agreement and Article V of the Agreement on Agriculture. Unless otherwise provided in this Article, this Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994, the Safeguards Agreement and Article V of the Agreement on Agriculture, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party from that measure if such imports are not a substantial cause of serious injury or threat thereof.

2. The competent investigating authority shall determine whether the imports from the other Party are a substantial cause of serious injury or threat thereof considering such factors as the import share, the change of the import share and the level and change in the level of imports of the other Party.

3. At the request of the other Party, the Party intending to take a global safeguard measure shall provide immediately written notification of all pertinent information on the initiation of a safeguard investigation, the preliminary determination and the final determination of the investigation.

4. Neither Party may apply, with respect to the same good, at the same time:

- (a) a bilateral safeguard measure; and

1. Except as otherwise provided for in this Chapter, the Parties maintain their rights and obligations under Article VI of GATT 1994, the *Agreement on Implementation of Article VI of GATT 1994*, contained in Annex 1A to the WTO Agreement (hereinafter referred to as the "Anti-Dumping Agreement") and the *Agreement on Subsidies and Countervailing Measures*, contained in Annex 1A to the WTO Agreement (hereinafter referred to as the "SCM Agreement").

2. The Parties agree that anti-dumping and countervailing duties should be used in full compliance with the relevant WTO requirements and should be based on a fair and transparent system as regards proceedings affecting goods originating in the other Party. For this purpose, the Parties shall ensure, immediately after any imposition of provisional measures and in any case before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and allow interested parties sufficient time to make their comments.

3. Interested parties shall be granted the opportunity to be heard in order to express their views during the anti-dumping or countervailing duty investigations.

ARTICLE 7.8: NOTIFICATION AND CONSULTATION

1. After receipt by a Party's competent authority of a properly documented anti-dumping application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification at the earliest practicable opportunity to the other party of its receipt of the application and afford the other Party a meeting or other similar opportunities regarding the application, consistent with the Party's law.

2. After receipt by a Party's competent authority of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting to

ARTICLE 7.10: LESSER DUTY RULE

Should a Party decide to impose an anti-dumping or countervailing duty, the amount of such duty shall not exceed the margin of dumping or countervailable subsidies, and it should be less than the margin if such lesser duty would be adequate to remove the injury to the domestic industry.

ARTICLE 7.11: CONSIDERATION OF PUBLIC INTEREST

The Parties shall endeavor to consider the public interest before imposing an anti-dumping or countervailing duty.

ARTICLE 7.12: PROHIBITION OF ZEROING

When anti-dumping margins are established, assessed, or reviewed under Articles 2, 9.3, 9.5, and 11 of the Anti-Dumping Agreement regardless of the comparison bases under Article 2.4.2 of the Anti-Dumping Agreement, all individual margins, whether positive or negative, should be counted toward the average.

2.  - (b) covered investments; and
 - (c) with respect to Article 9.9, all investments in the territory of the Party.¹

3. For the purposes of this Chapter, **measures adopted or maintained by a Party** means measures adopted or maintained by:
 - (a) central or local governments and authorities; and

In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.

¹ For greater certainty, an investor of a non-Party shall not claim any right based on this Chapter.

² This paragraph shall not be construed so as to preclude an investor who made any investments before the date of entry into force of this Agreement from submitting an arbitration claim pursuant to Article 9.17.2.

ARTICLE 9.3: NATIONAL TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, maintenance, use, enjoyment and sale or other disposition of investments in its territory.
2. 1. Each Party shall accord to covered investments treatment in accordance with applicable customary international law, including fair and equitable treatment and full protection and security.
2. The concepts of "fair and equitable treatment" and "full protection and security" in this Article do not require treatment in addition to or beyond that which is required by the applicable rules of customary international law and do not create additional substantive rights. For greater certainty:
 - (a) "fair and equitable treatment" includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings; and
 - (b) "full protection and security" requires each Party to provide the level of police protection required under applicable customary international law.
3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

ARTICLE 9.6: LOSSES AND COMPENSATION

1. Notwithstanding Article 9.12.6(b), a Party shall accord to investors of the other Party, and to covered investment, with respect to restitution, indemnification, compensation or other settlement relating to losses suffered by investments in its territory owing to war, other armed conflict, revolution, revolt, insurrection, civil disturbance, riot or other such similar activity in its territory, treatment no less favorable than that it accords, in like circumstances, to its own investors and their investments or investors of any non-Party and their investments. Any compensation shall be effectively realizable, freely transferable and freely convertible at the market exchange rate into freely usable currencies.

2. Without prejudice to paragraph 1, if an investor of a Party, in the situations referred to in paragraph 1, suffers a loss in the territory of the other Party resulting from:

 - (d) be fully realizable and freely transferable.
3. If the fair market value is denominated in a freely usable currency, the compensation referred to in paragraph 1(c) shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.
4. If the fair market value is denominated in a currency that is not freely usable, the compensation referred to in paragraph 1(c) – converted into the currency of payment at the market rate of exchange prevailing on the date of payment – shall be no less than:
- (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus
 - (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.
5. Without prejudice to Section B, the investors affected shall have a right, under the law of the Party making the expropriation, to prompt review, by a judicial or other independent authority of that Party, of the legality of the expropriation and of the valuation of their investment, in accordance with the principles set out in this Article.
6. This Article shall not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter 14 (Intellectual Property Rights) or the TRIPS Agreement.

- (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
- (e) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;

- (f) to transfer technology, a production process or other proprietary knowledge to a natural person or an enterprise in its territory, except those undertaken in a manner not inconsistent with the Agreement on Trade-Related Aspects of Intellectual Property Rights in Annex 1C to the WTO Agreement; or
- (g) to supply exclusively from the territory of the Party the goods that such investment produces or the services that it supplies to a specific regional market or to the world market.

2. The provisions of paragraph 1 do not preclude either Party from conditioning the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, maintenance, use, enjoyment and sale or other disposition of an investment in its territory of an investor of the other Party or of a non-Party, on compliance with⁵:

- (a) any requirement other than the requirements set forth in subparagraphs 1(b), 1(c), 1(d), and 1(e);
- (b) a requirement to locate production, supply or acquire a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory;
- (c) the requirements set forth in subparagraphs 1(b) and 1(c), when the requirements relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas are imposed by an importing Party; or
- (d) the requirements set forth in subparagraphs 1(b) and 1(c), when the requirements relating to goods or services with respect to export promotion and foreign aid program.

3. Paragraphs 1 and 2 shall not be construed to provide an investor of a Party a right to submit to arbitration under Section B a claim that the other Party has breached an obligation set forth in paragraphs 1 and 2 against a non-Party.

4. Paragraphs 1 and 2, with regards to an investment of an investor of a non-Party, shall not apply until both Parties, individually, have undertaken such an obligation in any existing or future free trade area agreements referred to in Article XXIV GATT with any non-Party.

5. Paragraphs 1(a), (b), and (c) do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs.

⁵ For greater certainty, nothing in paragraph 1 shall be construed to prevent a Party, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, from imposing or enforcing a requirement or enforcing a commitment or undertaking to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development in its territory, provided that such activity is consistent with paragraph 1(f).

6. Subparagraph 1(f) shall not apply when the requirement is imposed or the commitment or undertaking is enforced by a court of justice, administrative tribunal, or competition authority to remedy a violation of competition laws.

7. This Article does not preclude enforcement of any commitment, undertaking or requirement between private parties, where a Party did not impose or require the commitment, undertaking or requirement.

ARTICLE 9.10: SENIOR MANAGEMENT AND BOARDS OF DIRECTORS

1. No Party may require that an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority or less of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be a national of that Party or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

ARTICLE 9.11: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if persons of a non-Party own or control the enterprise and the denying Party:

- (a) does not maintain normal economic relation with the non-Party; or
- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. For the purpose of this Article, an enterprise is:

- (a) "owned" by an investor if more than 50 percent of the equity interest in it is beneficially owned by the investor; and
- (b) "controlled" by an investor if the investor has the power to name a majority of its directors or otherwise to legally direct its actions.

ARTICLE 9.12: NON-CONFORMING MEASURES

1. Articles 9.3, 9.4, 9.9, and 9.10 do not apply to:

- (a) any existing non-conforming measure that is maintained by a Party at

- (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
- (ii) a local level of government;⁶
- (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
- (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before amendment, with Article 9.3, 9.4, 9.9, or 9.10.

2. Subparagraph 1(c) shall not apply until both Parties, individually, have undertaken the obligation specified in subparagraph 1(c) in any existing or future free trade area agreement or similar arrangements covering investment liberalization provisions with any non-Party. Until such time, Article 9.3, 9.4, 9.9 and 9.10 shall not apply to an amendment to any non-conforming measure referred to in subparagraph 1(a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the entry into force of the Agreement, with Article 9.3, 9.4, 9.9, or 9.10.⁷

3. Articles 9.3, 9.4, 9.9, and 9.10 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.

4. No Party may, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

5. Articles 9.3 and 9.4 do not apply to any measure that is an exception to, or derogation from, the obligations under Section A (General Provisions) of Chapter 14 (Intellectual Property Rights) as specifically provided in that Section.

6. Articles 9.3, 9.4, 9.9, and 9.10 do not apply to:

- (a) government procurement; or
- (b) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

7. Each Party recognizes the importance of reviewing from time to time the non-conforming measures specified in its Schedules in Annexes I and II exploring the possibility for the reduction or elimination of the non-conforming measures.

⁶ For Korea, **local level of government** means a local government as defined in the *Local Autonomy Act*.

⁷ A claim that a Party has breached an obligation set forth in subparagraph 1(c) shall not be subject to arbitration under Section B until both Parties, individually, have undertaken the obligation specified in subparagraph 1(c) and adopted investor-state dispute settlement mechanism in any existing or future free trade area agreements or similar arrangements with any non-Party.

ARTICLE 9.13: SPECIAL FORMALITIES AND INFORMATION REQUIREMENTS

1. Nothing in Article 9.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered investments, such as a requirement that covered investments be legally constituted or registered under the requirements of its laws or regulations, provided that such formalities do not materially impair the protections afforded by the Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 9.3 and 9.4, a Party may require an investor of the other Party or its covered investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

ARTICLE 9.14: SUBROGATION

1. Where a Party or a designated agency of a Party makes a payment to any of its investors under a guarantee, a contract of insurance, or other form of indemnity, against non-commercial risks it has granted in respect to an investment of an investor of that Party, the other Party shall recognize the subrogation of any right or claim the investor would have possessed under this Chapter in respect to the investment.

2. Where a Party or the agency authorized by that Party has made a payment to its investor and has taken over rights and claims of the investor, that investor shall not, unless authorized to act on behalf of the Party or agency authorized by the Party making the payment, pursue those rights and claims against the other Party.

ARTICLE 9.15: EXCEPTIONS

1. Article 9.4 shall not be construed so as to oblige one Party to extend to the investors or covered investments of the other Party the benefit of any treatment, preference or privilege resulting from:

- (a) any existing customs union, common market, economic or monetary union, free trade area or similar international agreement, to which either Party is a party;
- (b) any future customs union, common market, economic or monetary union, free trade area or similar international agreement, to which either Party will be a party;
- (c) any existing or future bilateral or multilateral agreement concerning intellectual property; or

- (d) any agreement for the promotion and protection of investments concluded between either Party and a third state, that was signed before the entry into force of this Agreement.

2. Subparagraph 1(b) shall cease to apply when both Parties, individually, are party to a customs union, common market, economic or monetary union, free trade area or similar international agreement, which does not include the exception in subparagraph 1(b).

ARTICLE 9.16: DURATION AND TERMINATION

In respect of investments made while this Agreement is in force, the provisions of this Chapter shall continue in effect with respect to such investments for a period of 10 years after the date of termination of this Agreement, except insofar as those Articles extend to the establishment or acquisition of covered investments, and without prejudice to the application thereafter of the rules of general international law.

ARTICLE 9.17: TERM OF THE BILATERAL INVESTMENT TREATY

1. Subject to paragraph 2, the Parties hereby agree that the Bilateral Investment Treaty, as well as all the rights and obligations derived from the said Treaty, will cease to have effect on the date of entry into force of this Agreement.

2. Any and all investments made pursuant to the Bilateral Investment Treaty before the entry into force of this Agreement will be governed by the rules of the said Treaty regarding any matter arising while that Treaty was in force. An investor may only submit an arbitration claim pursuant to the Bilateral Investment Treaty, regarding any matter arising while the said Treaty was in force, in accordance with the rules and procedures established in it, and provided that no more than three years have elapsed since the date of entry into force of this Agreement.

Section B: Investor-State Dispute Settlement

ARTICLE 9.18: CONSULTATION AND NEGOTIATION

In the event of an investment dispute, the claimant and the respondent shall initially seek to resolve the dispute through consultation and negotiation, which may include the use of non-binding, third-party procedures.

ARTICLE 9.19: SUBMISSION OF A CLAIM TO ARBITRATION

1. In the event that a disputing party considers that an investment dispute cannot be settled by consultation and negotiations, the claimant may submit to arbitration under this

Section a claim that the respondent has breached an obligation under Section A, provided that such breach causes loss or damage to the investor or its investments.

2. The extent of the claim referred to in paragraph 1 shall not exceed the monetary value of the loss or damage caused to the investor as a result of the breach mentioned in paragraph 1.

3. Before submitting any claim to arbitration under this Section, a claimant shall deliver to the respondent a written notice of its intention to submit the claim to arbitration (notice of intent). The notice shall specify:

- (a) the name and address of the claimant;
- (b) for each claim, the provision of this Agreement, alleged to have been breached and any other relevant provisions;
- (c) the legal and factual basis for each claim; and
- (d) the relief sought and the approximate amount of damages claimed.

4. Provided that six months have elapsed since submission of the notice of intent, a claimant may submit a claim referred to in paragraph 1:

- (a) under the ICSID Convention and the ICSID Rules of Procedure for Arbitration Proceedings, provided that both the respondent and the non-disputing Party are parties to the ICSID Convention;
- (b) under the ICSID Additional Facility Rules, provided that either the respondent or the non-disputing Party is a party to the ICSID Convention;
- (c) under the UNCITRAL Arbitration Rules; or
- (d) if the claimant and respondent agree, under any other arbitration rules.

5. A claim shall be deemed submitted to arbitration under this Section when the claimant's notice of, or request for, arbitration (notice of arbitration):

- (a) referred to in paragraph 1 of Article 36 of the ICSID Convention is received by the Secretary-General;
- (b) referred to in Article 2 of Schedule C of the ICSID Additional Facility Rules is received by the Secretary-General;
- (c) referred to in Article 3 of the UNCITRAL Arbitration Rules, together with the statement of claim referred to in Article 20 of the UNCITRAL Arbitration Rules, are received by the respondent; or
- (d) referred to under any arbitral rules selected under paragraph 4(d) is received by the respondent.

A claim asserted by the claimant for the first time after such notice of arbitration is submitted shall be deemed submitted to arbitration under this Section on the date of its receipt under the applicable arbitral rules.

6. The arbitration rules applicable under paragraph 4, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except as provided in this Agreement.

7. The claimant shall provide with the notice of arbitration:

- (a) the name of the arbitrator that the claimant appoints; or
- (b) the claimant's written consent for the Secretary-General to appoint that arbitrator.

ARTICLE 9.20: CONSENT OF EACH PARTY TO ARBITRATION

1. Each Party consents to the submission of a claim to arbitration under this Section in accordance with this Agreement.

2. The consent under paragraph 1 and the submission of a claim to arbitration under this Section shall satisfy the requirements of:

- (a) Chapter II (Jurisdiction of the Centre) of the ICSID Convention and the ICSID Additional Facility Rules for written consent of the parties to the dispute; and
- (b) Article II of the New York Convention for an "agreement in writing."

ARTICLE 9.21: CONDITIONS AND LIMITATIONS ON CONSENT OF EACH PARTY

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 9.19.1 and knowledge that the claimant has incurred loss or damage.

2. No claim may be submitted to arbitration under this Section unless:

- (a) the claimant consents in writing to arbitration in accordance with the procedures set out in this Agreement;
- (b) the notice of arbitration is accompanied, for claims submitted to arbitration under Article 9.19.1, by the claimant's written waiver of any right to initiate or continue before any administrative tribunal or court under the law of either Party, or other dispute settlement procedures, any proceeding with respect to any measure alleged to constitute a breach referred to in Article 9.19; and

- (c) no judgment or award has been delivered on the subject matter of the dispute with regard to any measure alleged to constitute a breach referred to in Article 9.19 before any administrative tribunal or court under the law of either Party, or other dispute settlement procedures.

3. The claimant may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant's rights and interests during the pendency of the arbitration.

ARTICLE 9.22: SELECTION OF ARBITRATORS

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section. If the Secretary-General is a national of either Party or a national of a non-Party that does not maintain diplomatic relations with either Party or otherwise prevented from discharging the said function, the Deputy Secretary-General shall be invited to make the appointment.

3. If a tribunal has not been constituted within 90 days of the date a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed. The Secretary-General shall not appoint a national of either Party as the presiding arbitrator unless the disputing parties otherwise agree.

4. For the purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

- (a) the respondent agrees to the appointment of a national of the other Party to a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules; and
- (b) a claimant referred to in Article 9.19.1 may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of a national of the other disputing party as a member of the tribunal.

ARTICLE 9.23: CONDUCT OF THE ARBITRATION

1. Unless the disputing parties agree otherwise, the place of arbitration shall be in the territory of a State that is a party to the New York Convention.

2. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement. On the request of a disputing Party, the non-disputing Party should resubmit its oral submission in writing.

3. After consulting the disputing parties, the tribunal may allow a party or entity that is not a disputing party to file a written *amicus curiae* submission according to the Annex 9-F (Amicus Curiae) with the tribunal regarding a matter within the scope of the dispute. In determining whether to allow such a filing, the tribunal shall consider, among other things, the extent to which:

- (a) the *amicus curiae* submission would assist the tribunal in the determination of a factual or legal issue related to the proceeding by bringing a perspective, particular knowledge, or insight that is different from that of the disputing parties;
- (b) the *amicus curiae* submission would address a matter within the scope of the dispute; and
- (c) the *amicus curiae* has a significant interest in the proceeding.

The tribunal shall ensure that the *amicus curiae* submission does not disrupt the proceeding or unduly burden or unfairly prejudice either disputing party, and that the disputing parties are given an opportunity to present their observations on the *amicus curiae* submission.

4. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 9.29.

- (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment.
- (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.
- (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 20 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.

- (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days of the date the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 and any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When it decides a respondent's objection under paragraph 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

7. A respondent may not assert as a defense, counterclaim, or right of set-off, or for any other reason, that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract, except with respect to any subrogation as provided for in Article 9.14.

8. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 9.19. For the purposes of this paragraph, an order includes a recommendation.

9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Party. Within 60 days after the date the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award no later than 45 days after the date the 60-day comment period expires.

- (b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10 or Annex 9-C.

10. If a separate, multilateral agreement enters into force between the Parties that establishes an appellate body for the purposes of reviewing awards rendered by tribunals

constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties may negotiate an agreement that would have such appellate body review awards rendered under Article 9.29 in arbitrations commenced after the multilateral agreement enters into force between the Parties.

ARTICLE 9.24: TRANSPARENCY OF ARBITRAL PROCEEDINGS

1. Subject to paragraphs 2, 3, and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Party and make them available to the public:

- (a) the notice of intent;
- (b) the notice of arbitration;
- (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 9.23.2, 9.23.3 and Article 9.28;
- (d) minutes or transcripts of hearings of the tribunal, where available; and
- (e) orders, awards, and decisions of the tribunal.

2. Hearings shall be open to the public, unless the parties decide otherwise. Hearings shall be held in closed session when the submissions and arguments of a party contain confidential information. The tribunal may, in consultation with the parties, adopt appropriate logistical arrangements and procedures to ensure that hearings are not disrupted by the attendance of the public.

3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.4 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

- (a) Neither the disputing parties nor the tribunal shall disclose to the non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);
- (b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal; and
- (c) A disputing party shall, at the time it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted

version shall be provided to the non-disputing Party and made public in accordance with paragraph 1.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

ARTICLE 9.25: GOVERNING LAW

1. Subject to paragraph 4, when a claim is submitted under Article 9.19.1, the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. The Tribunal shall not have jurisdiction to determine the legality of a measure, alleged to constitute a breach of this Agreement, under the domestic law of disputing Party.

3. The Tribunal shall not have jurisdiction to determine the legality of a measure under the TRIPS Agreement or other multilateral intellectual property treaty.

4. A decision of the Joint Committee declaring its interpretation of a provision of this Agreement under Article 19.1 (Joint Committee) shall be binding on a tribunal, and any decision or award issued by a tribunal must be consistent with that decision.

ARTICLE 9.26: INTERPRETATION OF ANNEXES

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of an entry set out in Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Joint Committee on the issue. The Joint Committee shall submit in writing any decision declaring its interpretation under Article 19.1 (Joint Committee) to the tribunal within 60 days of delivery of the request.

2. A decision issued by the Joint Committee under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Joint Committee fails to issue such a decision within 60 days, the tribunal shall decide the issue.

ARTICLE 9.27: EXPERT REPORTS

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

ARTICLE 9.28: CONSOLIDATION

1. Where two or more claims have been submitted separately to arbitration under Article 9.19.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

- (a) the names and addresses of all the disputing parties sought to be covered by the order;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order otherwise agree, a tribunal established under this Article shall comprise three arbitrators:

- (a) one arbitrator appointed by agreement of the claimants;
- (b) one arbitrator appointed by the respondent; and
- (c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of either Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of that disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 9.19.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;

- (b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or
- (c) instruct a tribunal previously established under Article 9.22 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that:
 - (i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and
 - (ii) that tribunal shall decide whether any prior hearing shall be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 9.19.1 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6, and shall specify in the request:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 9.22 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 9.22 be stayed, unless the latter tribunal has already adjourned its proceedings.

ARTICLE 9.29: AWARDS

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest; and

- (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.
- 2. A tribunal may also award costs and attorney's fees in accordance with this Section and the applicable arbitration rules.
- 3. A tribunal may not award punitive damages.
- 4. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.
- 5. Subject to paragraph 6 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.
- 6. A disputing party may not seek enforcement of a final award until:
 - (a) in the case of a final award made under the ICSID Convention,
 - (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or
 - (ii) revision or annulment proceedings have been completed; and
 - (b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to Article 9.19.4(d),
 - (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or
 - (ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.
- 7. Each Party shall provide for the enforcement of an award in its territory.
- 8. If the respondent fails to abide by or comply with a final award, on delivery of a request by the non-disputing Party, a panel shall be established under Article 20.7 (Establishment of Panel). The requesting Party may seek in such proceedings:
 - (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and
 - (b) in accordance with Article 20.11 (Panel Report), a recommendation that the respondent abide by or comply with the final award.

9. A disputing party may seek enforcement of an arbitration award under the ICSID Convention or the New York Convention regardless of whether proceedings have been taken under paragraph 8.

10. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for the purposes of Article I of the New York Convention.

ARTICLE 9.30: SERVICE OF DOCUMENTS

Delivery of notice and other documents on a Party shall be made to the place named for that Party in Annex 9-B.

- (a) an enterprise;

The provisions of this chapter relating to investments shall apply to the reinvestment of the returns of an investment, which shall be granted the same treatment granted to the original investment, if the reinvestment is effected in accordance with the legislation of the Party in whose territory the investment is made. A change in the form of the investment or a change in the form of the reinvestment shall not affect their character as investments within the meaning of this Chapter if the change is effected in accordance with the legislation of the Party in whose territory the investment is made.

investor of a Party means a Party or state enterprise thereof, or a natural person¹⁰ or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of the other Party; provided, however, that a natural person who is a dual national of both Parties shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

⁸ The term "investment" does not include an order or judgement entered in a judicial or administrative action.

¹⁰ For Israel, the term natural person includes a natural person who is a national or permanent resident of the state of Israel.

protected information means confidential business information or information that is privileged or otherwise protected from disclosure under a Party's law;

respondent means the Party that is a party to an investment dispute under this Chapter;

ANNEX 9-A EXPROPRIATION

The Parties confirm their shared understanding that:

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right in an investment.
2. Article 9.7.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.
3. The second situation addressed by Article 9.7.1 is indirect expropriation, where an action or a series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
 - (a) The determination of whether an action or a series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including:
 - (i) the economic impact of the government action, although the fact that an action or a series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations;¹¹ and
 - (iii) the character of the government action, including its objectives and context.¹²
 - (b) Except in rare circumstances, such as, for example, when an action or a series of actions is extremely severe or disproportionate in light of its purpose or effect, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, the environment, and real estate price stabilization (through, for example, measures to improve the housing conditions for low-income households), do not constitute indirect expropriations.¹³

¹¹ Whether an investor's investment-backed expectations are reasonable depends in part on the nature and extent of governmental regulation in the relevant sector. For example, an investor's expectations that regulations will not change are less likely to be reasonable in a heavily regulated sector than in a less heavily regulated sector.

¹² For Korea, a relevant consideration could include whether the investor or the investment bears a disproportionate burden such as a special sacrifice that exceeds what the investor or investment should be expected to endure for the public interest.

¹³ For greater certainty, the list of "legitimate public welfare objectives" in subparagraph (b) is not exhaustive.

ANNEX 9-C
POSSIBILITY OF AN APPELLATE MECHANISM

Within three years after the date this Agreement enters into force, the Parties shall consider whether to establish a bilateral appellate body or similar mechanism to review awards rendered under Article 9.29 in arbitrations commenced after they establish the appellate body or similar mechanism.

ANNEX 9-D

TAXATION AND EXPROPRIATION

The determination of whether a taxation measure, in a specific fact situation, constitutes an expropriation requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including the factors listed in Annex 9-A and the following considerations:

- (a) The imposition of taxes does not generally constitute an expropriation. The mere introduction of a new taxation measure or the imposition of a taxation measure in more than one jurisdiction in respect of an investment generally does not in and of itself constitute an expropriation;
- (b) A taxation measure that is consistent with internationally recognized tax policies, principles, and practices should not constitute an expropriation. In particular, a taxation measure aimed at preventing the avoidance or evasion of taxation measures generally does not constitute an expropriation;
- (c) A taxation measure that is applied on a non-discriminatory basis, as opposed to a taxation measure that is targeted at investors of a particular nationality or at specific taxpayers, is less likely to constitute an expropriation; and
- (d) A taxation measure generally does not constitute an expropriation if it was already in force when the investment was made and information about the measure was publicly available.

ANNEX 9-E TRANSFERS

1. Nothing in this Chapter or Chapter 10 (Cross-Border Trade in Services) shall be construed to prevent a Party from adopting or maintaining temporary safeguard measures pursuant to the Party's laws and regulations with regard to payments and capital movements:

- (a) in the event of serious balance of payments and external financial difficulties or under threat thereof; or
- (b) in cases where, in exceptional circumstances, payments and capital movements cause or threaten to cause serious difficulties for the operation of monetary or exchange rate policies in the Party concerned.

2. The measures referred to in paragraph 1:

- (a) are in effect for a period not to exceed one year; however, if extremely exceptional circumstances arise such that the Party seeks to extend such measures, such Party will coordinate in advance with the other Party concerning the implementation of any proposed extension;
- (b) are not confiscatory;
- (c) do not constitute a dual or multiple exchange rate practice;
- (d) do not otherwise interfere with investors' ability to earn a market rate of return in the territory of the Party on any restricted assets;¹⁴
- (e) avoid unnecessary damage to the commercial, economic, or financial interests of the other Party;
- (f) are temporary and phased out progressively as the situation calling for imposition of such measures improves;
- (g) are applied in a manner consistent with Articles 9.3 and 10.2 (National Treatment) and Articles 9.4 and 10.3 (Most-Favoured-Nation Treatment) subject to the Schedules set out in Annex I and Annex II;
- (h) shall be promptly notified to the other Party;

¹⁴ For greater certainty, the term "restricted assets" in subparagraph (d) refers only to assets invested in the territory of a Party by an investor of the other Party that are restricted from being transferred out of the territory of a Party.

- (i) shall be consistent with the *Articles of Agreement of the IMF*, as may be amended; and
- (j) shall not restrict payments or transfers for current transactions, unless the imposition of such measures complies with the procedures stipulated in the *Articles of Agreement of the International Monetary Fund*.¹⁵

¹⁵ **Current transactions** shall have the meaning set forth in Article 30(d) of the *Articles of Agreement of the International Monetary Fund* and, for greater certainty, shall include interest pursuant to a loan or bond on any restricted amortization payments coming due during the period that controls on capital transactions are applied.

ANNEX 9-F
AMICUS CURIAE

The Tribunal may receive *amicus curiae* briefs from interested natural persons of a Party or legal persons, established in the territory of the Parties.

1. The briefs submitted to the Tribunal shall:
 - (a) be dated and signed by the interested person or its representative, and include the contact information of such person;
 - (b) disclose any affiliation, direct or indirect, with any disputing party; and identify any person, government or other entity that has provided, or will provide, any financial or other assistance in preparing the submission;
 - (c) be addressed to the chair person and shall be also communicated to the disputing parties in the language or languages chosen by the disputing parties; and
 - (d) be concise and in no case exceed 15 typed pages including any annexes.
2. The briefs shall be accompanied by a written declaration clearly indicating:
 - (a) a description of the interested persons who present them, including their place of incorporation in case of legal persons and address in case of natural persons, the nature of their activities, their sources of financing and, where relevant, documentation corroborating said information;
 - (b) whether the interested persons have any direct or indirect relation with any of the disputing parties as well as if they have received any financial or other type of contribution from any of the disputing parties, another government, natural persons or legal persons, generally or in the preparation of the brief; and
 - (c) a brief summary of how the interested persons brief would assist the tribunal in the determination of a factual or legal issue related to the proceeding.
3. The Tribunal shall not consider *amicus curiae* briefs which do not conform to the above rules.

ANNEX 9-G
SUBMISSION OF A CLAIM TO ARBITRATION

Korea

1. Notwithstanding Article 9.21.2, an investor of the State of Israel shall not submit to arbitration under Section B a claim that Korea has breached an obligation under Section A, if the investor has alleged that breach of an obligation under Section A in any proceedings before a court or administrative tribunal of Korea.

2. For greater certainty, where an investor of the State of Israel or an enterprise of Korea that is a juridical person that the investor owns or controls directly or indirectly makes an allegation that Korea has breached an obligation under Section A before a court or administrative tribunal of Korea, that election shall be final, and the investor may not thereafter allege that breach, in an arbitration under Section B.

CHAPTER 10 CROSS-BORDER TRADE IN SERVICES

ARTICLE 10.1: SCOPE

1. This Chapter shall apply to measures adopted or maintained by a Party affecting cross-border trade in services by service suppliers of the other Party. Such measures include measures affecting:

- (a) the production, distribution, marketing, sale, and delivery of a service;
- (b) the purchase or use of, or payment for, a service;
- (c) the access to and use of distribution, transport, or telecommunications networks and services in connection with the supply of a service; and
- (d) the presence in its territory of a service supplier of the other Party.

2. For the purposes of this Chapter, **measures adopted or maintained by a Party** means measures adopted or maintained by:

- (a) central or local governments and authorities; and
- (b) non-governmental bodies in the exercise of powers delegated by central, regional or local governments or authorities.

3. Notwithstanding paragraph 1, Articles 10.4, 10.7, and 10.8 shall also apply to measures adopted or maintained by a Party affecting the supply of a service in its territory through commercial presence.

4. Notwithstanding paragraph 1, this Chapter shall not apply to:

- (a) government procurement;
- (b) air services, including domestic and international air transportation services, whether scheduled or non-scheduled, and related services in support of air services, other than:
 - (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service;
 - (ii) the selling and marketing of air transport services; and
 - (iii) computer reservation system (CRS) services; or

- (c) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

5. This Chapter shall not impose any obligation on a Party with respect to a national of the other Party seeking access to its employment market, or employed on a permanent basis in its territory, and shall not confer any right on that national with respect to that access or employment.

6. This Chapter shall not apply to services supplied in the exercise of governmental authority in a Party's territory. A **service supplied in the exercise of governmental authority** means any service which is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

ARTICLE 10.2: NATIONAL TREATMENT

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

ARTICLE 10.3: MOST-FAVoured-NATION TREATMENT¹

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of a non-Party.

ARTICLE 10.4: MARKET ACCESS

No Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:
 - (i) the number of service suppliers, whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test;
 - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of service operations or the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;² or
 - (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who

¹ For greater certainty, nothing in this Article shall be interpreted as extending the scope of this Chapter.

² Sub-subparagraph (iii) does not cover measures of a Party which limit inputs for the supply of services.

are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or

- (b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

ARTICLE 10.5: LOCAL PRESENCE

No Party may require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

ARTICLE 10.6: NON-CONFORMING MEASURES

1. Articles 10.2 through 10.5 shall not apply to:

- (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
 - (ii) a local level of government;³
- (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a);
- (c) an amendment to any non-conforming measure referred to in subparagraph (a), to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 10.2; or
- (d) an amendment to any non-conforming measure referred to in subparagraphs (a), to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 10.3, 10.4, or 10.5.

2. Subparagraph 1(d) shall not apply until both Parties, individually, have undertaken the obligation specified in subparagraph 1(d) in any existing or future free trade area agreement or similar arrangements covering services liberalization provisions with any non-Party. Until such time, Articles 10.3, 10.4 and 10.5 shall not apply to an amendment to any non-conforming measure referred to in subparagraph 1(a), to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the entry into force of the Agreement, with Article 10.3, 10.4, or 10.5.

³ For Korea, **local level of government** means a local government as defined in the *Local Autonomy Act*.

3. Articles 10.2 through 10.5 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities as set out in its Schedule to Annex II.

ARTICLE 10.7: DOMESTIC REGULATION

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the Party's competent authorities shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that a Party adopts or maintains with respect to sectors, subsectors, or activities as set out in its Schedule to Annex II.

2. With a view to ensuring that measures related to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, while recognizing the right to regulate and to introduce new regulations on the supply of services in order to meet national policy objectives, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which the Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations among the Parties, to bring those results into effect under this Agreement. The Parties shall coordinate on such negotiations, as appropriate.

ARTICLE 10.8: TRANSPARENCY IN DEVELOPING AND APPLYING REGULATIONS⁴

Further to Chapter 16 (Transparency):

- (a) each Party shall establish or maintain appropriate mechanisms for responding to inquiries from interested persons regarding its regulations related to the subject matter of this Chapter; and

⁴ For greater certainty, "regulations" includes regulations establishing or applying to licensing authorization or criteria at the central, regional, and local levels of government.

- (b) to the extent possible, each Party shall allow reasonable time between publication of final regulations related to the subject matter of this Chapter and their effective date.

ARTICLE 10.9: RECOGNITION

1. For the purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 5, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.
2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 10.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.
3. On request of the other Party, a Party shall where appropriate promptly provide information, including appropriate descriptions, concerning any recognition agreement or arrangement that the Party or relevant bodies in its territory have concluded.
4. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in the other Party's territory should be recognized.
5. No Party may accord recognition in a manner that would constitute a means of discrimination among countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

ARTICLE 10.10: PAYMENTS AND TRANSFERS⁵

1. Each Party shall permit all transfers and payments related to the cross-border supply of services to be made freely and without delay into and out of its territory.
2. Each Party shall permit such transfers and payments related to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

⁵ For greater certainty, Annex 9-E(Transfers) shall apply to this Article.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws related to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
- (d) criminal or penal offences; or
- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

ARTICLE 10.11: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is an enterprise owned or controlled by persons of a non-Party, and the denying Party:

- (a) does not maintain normal economic relations with the non-Party; or
- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.

2. For the purpose of this Article, an enterprise is:

- (a) "owned" by a person if more than 50 percent of the equity interest in it is beneficially owned by the person; and
- (b) "controlled" by a person if the person has the power to name a majority of its directors or otherwise to legally direct its actions.

ARTICLE 10.12: EXCEPTIONS

1. Article 10.3 shall not be construed so as to oblige one Party to extend to the service suppliers of the other Party the benefit of any treatment, preference or privilege resulting from:

- (a) any existing customs union, common market, economic or monetary union, free trade area or similar international agreement, to which either Party is a party; or

- (b) any future customs union, common market, economic or monetary union, free trade area or similar international agreement, to which either Party will be a party.

2. Subparagraph 1(b) shall cease to apply when both Parties, individually, are party to a customs union, common market, economic or monetary union, free trade area or similar international agreement, which does not include the exception in subparagraph 1(b).

ARTICLE 10.13: DEFINITIONS

For the purposes of this Chapter:

aircraft repair and maintenance services means such activities when undertaken on an aircraft or a part thereof while it is withdrawn from service, and does not include so-called line maintenance;

commercial presence means any type of business or professional establishment, including through

- (a) the constitution, acquisition or maintenance of an enterprise, or
- (b) the creation or maintenance of a branch or a representative office,

within the territory of a Party for the purpose of supplying a service;

computer reservation system services means services provided by computerized systems that contain information about air carriers' schedules, availability, fares, and fare rules, through which reservations can be made or tickets may be issued;

cross-border trade in services or **cross-border supply of services** means the supply of a service:

- (a) from the territory of one Party into the territory of the other Party;
- (b) in the territory of one Party by a person of that Party to a person of the other Party; or
- (c) by a national of a Party in the territory of the other Party.

but does not include the supply of a service in the territory of a Party by a covered investment;

enterprise means an "enterprise" as defined in Article 1.7 (Definitions), and a branch of an enterprise;

enterprise of a Party means an enterprise organized or constituted under the laws of a Party, or a branch located in the territory of that Party and carrying out substantial business activities there;

selling and marketing of air transport services means opportunities for the air carrier concerned to sell and market freely its air transport services, including all aspects of marketing such as market research, advertising, and distribution. These activities do not include the pricing of air transport services nor the applicable conditions; and

service supplier of a Party means a person of that Party that seeks to supply or supplies a service.⁶

⁶ For the purposes of Articles 10.2 and 10.3, “service suppliers” has the same meaning as “services and service suppliers” as used in Articles II and XVII of GATS.

CHAPTER 11

TEMPORARY ENTRY OF BUSINESS PERSONS

ARTICLE 11.1 : SCOPE

1. This Chapter shall apply, as set out in each Party's Schedule of specific commitments in Annex 11-A or 11-B, to measures affecting the temporary entry of business persons of a Party into the territory of the other Party. Such business persons may include:

- (a) business visitors; or
- (b) intra-corporate transferees.

ARTICLE 11.2 : GENERAL PRINCIPLES

1. This Chapter reflects the preferential trading relationship between the Parties, their mutual desire to facilitate temporary entry for business persons on a reciprocal basis and to establish transparent criteria and procedures for temporary entry in accordance with Annex 11-A or 11-B.

2. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, nationality, residence or employment on a permanent basis.

ARTICLE 11.3 : GENERAL OBLIGATIONS

1. Each Party shall apply its measures relating to this Chapter in accordance with Article 11.2 and, in particular, shall apply those measures as expeditiously as possible so as to avoid unduly impairing or delaying trade in goods or services or conduct of investment activities under this Agreement.

2. Nothing in this Agreement shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across its borders, provided that such measures are not applied in such a manner as to nullify or impair the commitments made by a Party under this agreement. The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as unduly impairing or delaying trade in goods or services or conduct of investment activities under this Agreement.

ARTICLE 11.4 : GRANT OF TEMPORARY ENTRY¹

1. Each Party shall, in accordance with that Party's Schedule of specific commitments in Annex 11-A or 11-B, grant temporary entry to business persons of the other Party who are otherwise qualified for entry in accordance with this Chapter.
2. Each Party shall set out in Annexes 11-A and 11-B a Schedule containing its commitments for the entry and temporary stay in its territory of business persons of the other Party. These Schedules of specific commitments shall specify the conditions and limitations for entry and temporary stay, including the requirements and length of stay, for each category of business persons included in each Party's Schedule of specific commitments.
3. Where a Party makes a commitment under paragraphs 1 and 2, that Party shall grant temporary entry or extension of temporary stay to business persons of the other Party, provided those business persons:
 - (a) follow prescribed application procedures for the immigration formality sought; and
 - (b) meet all relevant eligibility requirements for entry to the granting Party.
4. Temporary entry granted pursuant to this Chapter shall not replace the requirements needed to carry out a profession or activity according to the specific laws and regulations in force in the territory of the Party authorising the temporary entry.
5. Each Party shall ensure that fees charged by competent authorities for the processing of applications for entry and temporary stay do not unduly impair or delay trade in services under this Agreement.
6. Neither Party shall, except as provided for in its Schedule of specific commitments in Annex 11-A or 11-B, require labour market tests or other procedures of similar effect, or impose or maintain any numerical restriction relating to temporary entry as a condition for entry.

ARTICLE 11.5 : PROVISION OF INFORMATION

Each Party shall:

- (a) to the extent practicable provide the other Party with relevant materials that will enable the other Party to become acquainted with its measures related to this Chapter;
- (b) publish, such as on its immigration website, no later than six months after the date of entry into force of this Agreement, the requirements for temporary entry

¹ The commitments made by each Party under this Chapter shall be subject to any terms, conditions, reservations or limitations it has scheduled in Annex I or Annex II.

under this Chapter, including explanatory material and relevant forms and documents that will enable business persons of the other Party to become acquainted with its requirements;

- (c) upon modifying or amending an immigration measure that affects the temporary entry of business persons, ensure that the information published pursuant to this Article is updated by the date of entry into force of that modification or amendment; and
- (d) establish or maintain appropriate mechanisms to respond to inquiries from interested persons regarding applications and procedures related to the temporary entry of business persons.

ARTICLE 11.6 : EXPEDITIOUS APPLICATION PROCEDURES

1. The competent authorities of each Party shall expeditiously process, in accordance with its domestic law, applications for an immigration formality or extension thereof submitted by business persons of the other Party, in accordance with its schedule of specific commitments.

2. Upon receipt of an application for an immigration formality that has been completed and submitted in accordance with its domestic laws and regulations, a Party shall, as expeditiously as possible, make a decision on the application and inform the applicant of the decision including, if approved, the period of stay and other conditions. The Honorable ()
Minister for Trade
Sejong, Republic of Korea

Dear Minister () :

I have the honor to confirm the following understanding reached between the delegations of the Republic of Korea and State of Israel during the course of negotiations regarding Chapter 11 (Temporary Entry of Business Persons) of the Free Trade Agreement between our two Governments signed this day, concerning the procedures for considering requests for extension of Korean Intra-corporate Transferees' stay in Israel beyond 63 months in addition to the commitments in Annex 11-B, Israel's Schedule of Specific Commitments on Temporary Entry of Business Persons.

In considering an application to extend the validity of a B/1 visa and work license issued to a foreign expert for periods exceeding 63 months, as per section 3a(c1) of the Entry into Israel Law-1952, the following circumstances, *inter alia*, will be taken into account by the recommending committee:

- a. The identity and contribution of the entity employing the foreign expert, which has applied for a permit to continue to employ such expert.
- b. The qualifications of the foreign expert, the particulars of the position of the foreign expert in the employing entity, the importance of the continued employment of the foreign expert by the requesting entity in Israel.
- c. The number of nationals of the foreign expert's nationality illegally staying in Israel, as well as indications that the foreign expert does not intend to settle permanently in Israel.

In cases in which the application for extension of the stay and employment of the foreign expert for a period beyond 63 months is based upon a claim of contribution to the economy of Israel, the committee will also consider the existence of a Free Trade Agreement between Korea and Israel which includes a chapter on Temporary Entry of Business Persons as an additional positive indication of the contribution of the foreign expert and the employing entity requesting to continue to employ the expert, as the ratification of the above Free Trade Agreement between Korea and Israel signifies the importance of the trade relationship and the movement of business persons between the two countries.

I have the honor to propose that this letter and your letter in reply confirming that your Government shares this understanding shall constitute an integral part of the Free Trade Agreement. I look forward to working closely with you and your Government in connection with the implementation of the Free Trade Agreement.

Sincerely,

5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks and services, other than as necessary to:

2. Where a Party requires a major supplier of public telecommunications services in its territory to offer for resale, to suppliers of public telecommunications services of the other Party, public telecommunications services that such major supplier provides at retail to end-users that are not suppliers of public telecommunications services, it shall ensure that such services are offered for resale at reasonable rates.

ARTICLE 12.7: UNBUNDLING OF NETWORK ELEMENTS

2. 2. Each Party may determine in accordance with its laws and regulations the poles, ducts, conduits, rights of way or other structures to which it requires major suppliers in its territory to provide access under paragraph 1.

Section D: Other Measures

ARTICLE 12.12: SUBMARINE CABLE SYSTEMS

Where a supplier of telecommunications networks or services operates a submarine cable system to provide public telecommunications networks or services, the Party in whose territory the supplier is located shall ensure that such supplier accords the suppliers of public telecommunication networks or services of the other Party reasonable and non-

discriminatory treatment with respect to access³ to that submarine cable system (including landing facilities) in its territory.

ARTICLE 12.13: CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES

1. Neither Party may require an enterprise in its territory that it classifies as a supplier of value-added services and that supplies those services over facilities that the enterprise does not own to:
 - (a) supply those services to the public generally;
 - (b) cost-justify its rates for those services;
 - (c) file a tariff for those services;
 - (d) connect its networks with any particular customer for the supply of those services; or
 - (e) conform with any particular standard or technical regulation of the telecommunications regulatory body for connecting to any other network, other than a public telecommunications network.
2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1 to remedy a practice of a supplier of value-added services that the Party has found in a particular case to be anticompetitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

ARTICLE 12.14: INDEPENDENT REGULATORY BODIES

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. With a view to ensuring the independence and impartiality of telecommunications regulatory bodies, each Party shall ensure that its telecommunications regulatory body does not own equity⁴ or maintain an operating or management role in any such supplier.

³ For greater certainty:

(a) access to submarine cable landing facilities is subject to capacity; and

(b) with respect to access for suppliers of public telecommunications networks or services of the other Party that do not own facilities in the territory of the Party, a Party may comply with this provision by ensuring access to submarine cable systems through facilities leased from, or public telecommunications services provided by, a supplier of public telecommunications networks or services licensed in its territory.

⁴ For greater certainty, Article 12.14 shall not be construed to prohibit a government entity of a Party other than the telecommunications regulatory body from owning equity in a supplier of public telecommunications

2. Each Party shall ensure that its regulatory decisions and procedures, including decisions and procedures relating to licensing, interconnection with public telecommunications networks and services, tariffs, and assignment or allocation of spectrum for non-government public telecommunications services, are impartial with respect to all market participants.

ARTICLE 12.15: UNIVERSAL SERVICE

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

ARTICLE 12.17: ALLOCATION AND USE OF SCARCE RESOURCES

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.
2. Each Party shall make publicly available the current state of allocated frequency bands, but retains the right not to provide detailed identification of frequencies allocated or assigned for specific government uses.
3. A Party's measures allocating and assigning spectrum and managing frequency shall not be considered inconsistent with Article 10.4 (Market Access) either as it applies to

cross-border trade in services or through the operation of Article 10.1.3 (Scope) to an investor or covered investment of the other Party. Accordingly, each Party retains the right to establish and apply spectrum and frequency management measures that may have the effect of limiting the number of suppliers of public telecommunications services, provided that it does so in a manner consistent with this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.

4. Each Party shall endeavor to allocate and assign spectrum for non-government telecommunications services in a manner that encourages economically efficient use of the spectrum and competition among suppliers of telecommunications services, recognizing that a Party may encourage this behavior through a variety of means, including through administrative incentive pricing, auctions, or unlicensed use.

ARTICLE 12.18: ENFORCEMENT

Each Party shall provide its telecommunications regulatory body with the authority to enforce the Party's measures relating to the obligations set out in Articles 12.2 through 12.12. That authority shall include the ability to impose effective sanctions which may include financial penalties, injunctive relief (on an interim or final basis), corrective orders, or the modification, suspension, or revocation of licenses.

ARTICLE 12.19: RESOLUTION OF TELECOMMUNICATIONS DISPUTES

Further to Articles 16.3 (Administrative Proceedings) and 16.4 (Review and Appeal), each Party shall ensure that:

Recourse

- (a) (i) service supplier may have recourse to a telecommunications regulatory body of the Party to resolve disputes regarding the Party's measures relating to matters set out in Articles 12.2 through 12.12; and
- (ii) suppliers of public telecommunications services of the other Party that have requested interconnection with a major supplier in the Party's territory may seek review, within a reasonable and publicly specified period after the supplier requests interconnection, by its telecommunications regulatory body to resolve disputes regarding the terms, conditions, and rates for interconnection with that major supplier; and

Judicial Review

- (b) any service supplier whose legally protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body

may obtain review of the determination or decision by an impartial and independent judicial authority of the Party. No Party may permit an application for judicial review to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless the relevant judicial body stays the determination or decision.

ARTICLE 12.20: TRANSPARENCY

Further to Article 16.1 (Publication), each Party shall ensure that:

- (a) regulatory decisions, including the basis for such decisions, of its telecommunications regulatory body are promptly published or otherwise made available to all interested persons;
- (b) where applicable, interested persons are provided with adequate advance public notice of, and reasonable opportunity to comment on, any rulemaking that its telecommunications regulatory body proposes;
- (c) its telecommunications regulatory body responds in its rulemaking to all significant and relevant issues raised in comments filed with the telecommunications regulatory body; and
- (d) its measures relating to public telecommunications services are made publicly available, including:
 - (i) measures relating to
 - (A) tariffs and other terms and conditions of service;
 - (B) specifications of technical interfaces;
 - (C) conditions for attaching terminal or other equipment to the public telecommunications network; and
 - (D) notification, permit, registration, or licensing requirements, if any; and
 - (ii) procedures relating to judicial and other adjudicatory proceedings.

ARTICLE 12.21: MEASURES CONCERNING TECHNOLOGIES AND STANDARDS⁵

⁵ For greater certainty, except for paragraph 1, this Article shall not apply to measures adopted before the
12-11

1. No Party shall prevent suppliers of public telecommunications networks or services or value-added services from having the flexibility to choose the technologies that they use to supply their services.
2. Notwithstanding paragraph 1, a Party may apply a measure that limits the technologies or standards that a supplier of public telecommunications networks or services or value-added services may use to supply its services, provided that the measure is designed to satisfy a legitimate public policy objective and is not prepared, adopted or applied in a manner that creates unnecessary obstacles to trade.⁶

ARTICLE 12.22: RELATION TO OTHER CHAPTERS

In the event of any inconsistency between this Chapter and any other Chapter, this Chapter shall prevail to the extent of the inconsistency.

ARTICLE 12.23: DEFINITIONS

For the purposes of this Chapter:

commercial mobile services means public telecommunications services supplied through mobile wireless means;

cost-oriented means based on cost, and may include a reasonable profit, and may involve different cost methodologies for different facilities or services;

2. The Parties shall grant adequate and effective protection to marks including certification marks, collective marks and service marks for goods and services.⁴

3. No Party may require, as a condition of registration, that signs be visually perceptible, nor may either Party deny registration of a trademark solely on the grounds that the sign of which it is composed is a sound.⁵

4. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner's consent from using in the course of trade identical or similar signs for goods or services that are identical or similar to those goods or services in respect of which the owner's trademark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign, for identical goods or services, a likelihood of confusion shall be presumed. The rights described above shall not prejudice any existing prior rights, nor shall they affect the possibility of Parties making rights available on the basis of use.

³ For greater certainty, a Party may satisfy the requirement in Article 14.5 to publish a law, regulation, or procedure by making it available to the public on the Internet.

2. In determining whether a trademark is well known in a Party the competent authority in that Party shall take account of the knowledge of the trademark in the relevant sector of the public, including knowledge thereof in the Party concerned which has been obtained as a result of the promotion of the trademark.

3. The protection according to this Article shall not be limited to identical or similar goods or services where the registered trade mark is well known in the respective Party, provided that use of a trademark which is identical or similar to the well-known trademark above in relation to those goods or services would indicate a connection between those goods or services and the owner of the registered trademark, and provided that the interests of the owner of the registered trademark are likely to be damaged by such use.

4. Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark, for identical or similar goods or services, if the use of that trademark is likely to cause confusion with the prior well-known trademark.⁶

ARTICLE 14.14: AMENDMENTS, CORRECTIONS, AND OBSERVATIONS

the complaining Party may at any time thereafter provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of benefits of equivalent effect. The notice shall specify the level of benefits that the complaining Party proposes to suspend. - (b) the complaining Party that considers it is not practicable or effective to suspend benefits or other obligations in the same sector or sectors may suspend benefits in other sectors.

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the original panel be reconvened to consider the matter. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes to review a request under either subparagraph (a) or (b), or within 120 days for a request under both subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

6. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 5 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

ARTICLE 20.15: COMPLIANCE REVIEW

Without prejudice to the procedures set out in Article 20.14.5, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request

and shall issue its report on the matter within 60 days after the Party complained against provides notice.

16. A panelist shall avoid entering into any relationship, or acquiring any financial interest, that is likely to affect the panelist's impartiality or that might reasonably create an appearance of impropriety or bias.

Duties in Certain Situations

- (a) a Party may make available to the public at any time its own written submissions;

The Parties understand that the measures referred to in Article XX(b) of GATT 1994 include environmental measures necessary to protect human, animal, or plant life or health, and that Article XX(g) of GATT 1994 applies to measures relating to the conservation of living and non-living exhaustible natural resources.
2. The Parties understand that the measures referred to in Article XIV(b) of GATS include environmental measures necessary to protect human, animal, or plant life or health.
3. For the purposes of Chapter 9 (Investment), subject to the requirement that such measures are not applied in an arbitrary or unjustifiable manner, and do not constitute a disguised restriction on international trade or investment, nothing in this agreement shall be construed to prevent a Party from adopting or maintaining measures including environmental measures:
 - (a) necessary to secure compliance with laws and regulations that are not inconsistent with this agreement;
 - (b) necessary to protect human, animal or plant life or health;
 - (c) related to the conservation of living or non-living exhaustible natural resources;
 - (d) necessary to protect national treasures of artistic, historic or archeological value; or

4. This Agreement shall not apply to financial services as defined in Article 1.7 (Definitions)

¹ Article 21.1 is without prejudice to whether digital products should be classified as goods or services.

ARTICLE 21.2: ESSENTIAL SECURITY

Nothing in this Agreement shall be construed:

- (a) to require a Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests; or
- (b) to preclude a Party from applying measures that it considers necessary for the fulfillment of its obligations under the United Nations Charter with respect to the maintenance or restoration of international peace or security, or for the protection of its own essential security interests, or in order to carry out obligations it has accepted for the purposes of maintaining international security.

ARTICLE 21.3: TAXATION

1. Except as set out in this Article, nothing in this Agreement shall apply to taxation measures.

- 2. (a) Nothing in this Agreement shall affect the rights and obligations of either Party under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to the extent of the inconsistency.
- (b) In the case of a tax convention between the Parties, the competent authorities under that convention shall have sole responsibility for determining whether any inconsistency exists between this Agreement and that convention.

3. Notwithstanding paragraph 2:

- (a) Article 2.2 (National Treatment) and such other provisions of this Agreement as are necessary to give effect to that Article shall apply to taxation measures to the same extent as does Article III of GATT 1994; and
- (b) Article 2.12 (Export Duties, Taxes, or Other Charges) shall apply to taxation measures.

4. Subject to paragraph 2:

- (a) Article 10.2 (National Treatment) shall apply to taxation measures on income, on capital gains, or on the taxable capital of corporations that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services on requirements to provide the service in its territory; and
- (b) Articles 9.3 (National Treatment), 9.4 (Most-Favored-Nation Treatment), 10.2

(National Treatment), and 10.3 (Most-Favored-Nation Treatment) shall apply to all taxation measures, other than those on income, on capital gains, or on the taxable capital of corporations; or taxes on estates, inheritances, gifts, and generation-skipping transfers;

except that nothing in the Articles referred to in subparagraphs (a) and (b) shall apply:

- (c) any most-favored-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
- (d) to a non-conforming provision of any existing taxation measure;
- (e) to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
- (f) to an amendment to a non-conforming provision of any existing taxation measure, to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;
- (g) to the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes (as permitted by Article XIV(d) of GATS); or
- (h) to a provision that conditions the receipt, or continued receipt, of an advantage relating to the contributions to, or income of, a pension trust or pension plan, on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan.

6. (a) Article 9.19 (Submission of a Claim to Arbitration) shall apply to a taxation measure alleged to be an expropriation.
- (b) Article 9.7 (Expropriation and Compensation) shall apply to taxation measures. However, no investor may invoke Article 9.7 as the basis for a claim where it has been determined pursuant to this subparagraph that the measure is not an expropriation. An investor that seeks to invoke Article 9.7 with respect to a taxation measure must first refer to the competent authorities, at the time that it gives its notice of intent under Article 9.19 (Submission of a Claim to Arbitration), the issue of whether that taxation measure is not an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of 180 days of such referral, the investor may submit its claim to arbitration under Article 9.19.
- (c) For the purposes of this paragraph, **competent authorities** means:

- (i) for Korea, the Deputy Minister for Tax and Customs, Ministry of Economy and Finance; and
- (ii) for Israel, the Chief Economist, the Ministry of Finance.

7. For the purposes of this Article, “taxes” and “taxation measures” do not include:
- (a) customs duties as defined in Article 1.7 (Definitions); or
 - (b) the measures listed in exceptions (b), (c) and (d) of that definition.

ARTICLE 21.4: DISCLOSURE OF INFORMATION

Nothing in this Agreement shall be construed to require a Party to furnish or allow access to confidential information the disclosure of which would be contrary to its law, impede law enforcement or otherwise be contrary to the public interest or which would prejudice the legitimate commercial interests of particular individuals and enterprises, public or private.

FOR THE GOVERNMENT OF
THE REPUBLIC OF KOREA

FOR THE GOVERNMENT OF
THE STATE OF ISRAEL

ANNEX I

SCHEDULE OF THE REPUBLIC OF KOREA

EXPLANATORY NOTE

1. The Schedule of Korea to this Annex sets out, pursuant to Articles 9.12 (Non-Conforming Measures) and 10.6 (Non-Conforming Measures), Korea's existing measures that are not subject to some or all of the obligations imposed by:

- (a) Article 9.3 (National Treatment) or 10.2 (National Treatment);
- (b) Article 9.4 (Most-Favoured-Nation Treatment) or 10.3 (Most-Favoured-Nation Treatment);
- (c) Article 10.4 (Market Access);
- (d) Article 10.5 (Local Presence);
- (e) Article 9.9 (Performance Requirements); or
- (f) Article 9.10 (Senior Management and Boards of Directors)

2. Each Schedule entry sets out the following elements:

- (a) **Sector**, refers to the sector for which the entry is made;
- (b) **Obligation Concerned**, specifies the obligation(s) referred to in paragraph 1 that, pursuant to Articles 9.12.1(a) and 10.6.1(a), shall not apply to the non-conforming aspects of the law, regulation, or other measures, as set out in paragraph 3;
- (c) **Measures**¹, identifies the laws, regulations, or other measures for which the entry is made. A measure cited in the Measures element:
 - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement; and
 - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
- (d) **Description**, sets out commitments, if any, for liberalization on the date of entry into force of this Agreement, and the remaining non-conforming aspects of the measure for which the entry is made.

3. In the interpretation of a Schedule entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant Articles of the Chapters against which

¹ For greater certainty, a change in the level of government at which a measure is administered or enforced does not, by itself, decrease the conformity of the measure with the obligations referred to in Article 9.12.1 and Article 10.6.1.

the entry is made. To the extent that:

- (a) the Measures element is qualified by a liberalization commitment from the Description element, the Measures element as so qualified shall prevail over all other elements; and
- (b) the Measures element is not so qualified, the Measures element shall prevail over all other elements, unless any discrepancy between the Measures element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the Measures element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.

4. In accordance with Articles 9.12.1(a) and 10.6.1(a) and subject to Articles 9.12.1(c) and 10.6.1(c), the Articles of this Agreement specified in the Obligations Concerned element of an entry do not apply to the non-conforming aspects of the law, regulation, or other measure identified in the Measures element of that entry.

5. Where Korea maintains a measure that requires that a service provider be a citizen, permanent resident, or resident of its territory as a condition to the provision of a service in its territory, a Schedule entry for that measure taken with respect to Article 10.2 (National Treatment), 10.3 (Most-Favoured-Nation Treatment), or 10.5 (Local Presence) shall operate as a Schedule entry with respect to Article 9.3 (National Treatment), 9.4 (Most-Favoured-Nation Treatment), or 9.9 (Performance Requirements) to the extent of that measure.

6. A **foreign person** means a foreign national or an enterprise organized under the laws of another country.

7. The Schedule contained in this Annex is without prejudice to Korea's position on the supply of services that were not technically feasible at the time of entry into force of this Agreement, and the supply of new services other than those classified positively and explicitly in UN CPC provisional code.

8. For greater certainty, in accordance with Article 10.1.3, a Schedule entry for a non-conforming measure with respect to Article 10.4 (Market Access) shall also apply to measures adopted or maintained by Korea affecting the supply of a service in its territory through commercial presence, notwithstanding the heading of the Description element.

9. For greater certainty, Articles 10.2 (National Treatment) and 10.5 (Local Presence) are separate disciplines and a measure that is only inconsistent with Article 10.5 (Local Presence) need not be reserved against Article 10.2 (National Treatment)
